
Proper Power and Grounding connections installed with high-quality products and tools are critical to ensure operator safety, equipment performance and system reliability.

We’ve Got You Covered
Partner with Panduit for a full solution of over 30,000 available parts engineered to reduce installation time and costs, improve operational performance, and meet or exceed industry standards. Gain access to programs that provide resources, tools and training so you can drive your business forward.

www.panduit.com/buildnow
Top 10 most frequently cited standards by Federal OSHA in fiscal year 2015 (October 1, 2014 through September 30, 2015).

1. **Fall Protection**
   Keep fall protection readily available to help protect workers.
   - **Safety Signs** – Page 25

2. **Hazard Communication**
   Comply with Haz-Com requirements and GHS provisions.
   - **Haz-Com** – Page 72

3. **Scaffolding**
   Increase jobsite safety with simple safety notifications.
   - **Safety Tags** – Page 38, 40

4. **Respiratory Protection**
   Prevent entry into areas where dangerous gases may be present.
   - **Free Standing Signs** – Page 89
5 **Lockout/Tagout**
When in doubt, lock out equipment. Protect workers from accidental start-up.
*Lockout/Tagout – Page 59-69*

6 **Powered Industrial Trucks**
Help avoid accidents in and around forklifts.
*Floor Signs – Page 86*  
*Hard Hat Labels – Page 26*

7 **Ladders**
Raise awareness about ladder and stairway safety to prevent accidents.
*Safety Tags – Page 38, 40*

8 **Electrical – Wiring Methods**
Be aware of dangers associated with electrical hazards.
*Cable Ties – Page 44-46*  
*Wire Markers – Page 48, 49*

9 **Machine Guarding**
Post warning signs and labels to warn employees of potential machine guarding hazards.
*Safety Signs – Page 19*  
*Safety Labels – Page 20*

10 **Electrical – General Requirements**
Proper identification can lead to a more safe and compliant workplace.
*Safety Signs – Page 15*  
*Voltage Markers – Page 17*
Stock Safety Signs & Labels

Our stock signs and labels are ready-to-ship … today. Safely made in the USA!

**OSHA STYLE**

- **DANGER**
  - Red
  - Indicates a hazardous situation that, if not avoided, will result in death or serious injury.

- **WARNING**
  - Orange
  - Indicates a hazardous situation that, if not avoided, could result in death or serious injury.

- **CAUTION**
  - Yellow
  - Indicates a hazardous situation that, if not avoided, could result in minor or moderate injury.

- **NOTICE**
  - Blue
  - Indicates information considered important but not hazard-related.

- **SAFETY FIRST**
  - Green
  - Indicates specific safety-related instructions or procedures that are related to safe work practices.

**ANSI STYLE**

- **DANGER**
  - Orange
  - Indicates a hazardous situation that, if not avoided, will result in death or serious injury.

- **WARNING**
  - Red
  - Indicates a hazardous situation that, if not avoided, could result in death or serious injury.

- **CAUTION**
  - Yellow
  - Indicates a hazardous situation that, if not avoided, could result in minor or moderate injury.

- **NOTICE**
  - Blue
  - Indicates information considered important but not hazard-related.

- **SAFETY FIRST**
  - Green
  - Indicates specific safety-related instructions or procedures that are related to safe work practices.

---

**OSHA 29 CFR § 1910.145**

Traditional OSHA-style signs and labels are the most widely recognized design format in industry. They use upper case lettering, and the message is generally centered underneath the header. This standardized sign format continues today to be the choice for selecting messages in safety signs.

**ANSI Z535**

Newer ANSI-style signs and labels are gaining in popularity and are recognized by OSHA as an acceptable safety notification device. Signs often include a visual alert symbol (triangle with an exclamation point!), a large symbol, and left-justified upper and lower case message lettering. These signs are clearly visible and provide concise safety alert messages.
Choose the Right Stock Material

Your facility signs are used indoors and outdoors, in ordinary conditions or extreme. We offer materials to match your needs. Select a material based upon your application requirements to ensure your message is conveyed clearly and effectively.

Every sign we make is American-made and skillfully crafted with quality in mind. Our stock signs are available in a variety of materials and printed with technologically advanced inks. With many materials featuring no-hassle extended guarantees, your printed sign will continue to notify and alert employees for years. For additional information, please give us a call.

Adhesive Vinyl (PVS)

Stick with Adhesive Vinyl for light-duty applications. The ideal choice for a variety of indoor, and sheltered outdoor, marking needs. Easily mounts to all curved areas such as pipes, poles and secondary containers.

Material Features
- 0.004" thick printed matte surface
- Permanent acrylic adhesive
- Moisture-resistant
- Service temperature range: -20° to 176°F
- Square corners and scored backing for quick peel-off and application
- Durability: 2 years outdoors

Applications
- Adheres to most surfaces
- Indoor usage
- Light-duty application
- Sheltered outdoor locations

Polyethylene Plastic (PRS)

Appropriate for everyday medium-duty marking needs. Semi-flexible, economical design with 50% recycled content is ideal for indoor and sheltered outdoor environments.

Material Features
- 0.055" thick with good impact resistance and surface image with non-glare finish
- Manufactured with 50% recycled plastic and is recyclable
- Ideal for flat surfaces, with enough flex to mount on slightly curved areas
- Contains UV inhibitors
- Service temperature range: -90° to 168°F
- Rounded corners and 0.1875" mounting holes
- Durability: 2 years outdoors

Applications
- Indoor usage
- Medium-duty marking needs
- Sheltered outdoor locations
- Ideal for low-cost informational usage

Polyester Laminated Vinyl (PLVS)

Dual-layered Polyester Laminated Vinyl delivers exceptional flexibility and performance. Durability, even in the toughest indoor and outdoor conditions.

Material Features
- 0.006" thick poly-composite with UV protective coating
- Sub-surface image is protected by high-gloss polyester film from water, chemicals and abrasion
- Permanent acrylic adhesive backing
- Service temperature range: -20° to 176°F
- Round corners without holes; scored backing for quick peel-off and application
- Durability: 5 years outdoors

Applications
- Indoor and outdoor usage
- Adheres to most surfaces
- Excellent in harsh environments

Aluminum (PAS)

Get the strength of metal, without the rust. Aluminum has superior abrasion and chemical resistance for indoor and outdoor environments.

Material Features
- Printed image on rigid 0.040" aluminum sheet
- UV protective coating
- Service temperature range: -40° to 250°F
- Withstands splashes and washdowns
- Endures outdoor environmental conditions
- Rounded corners and 0.1875" mounting holes on most sizes, will be adjusted for larger sizes
- Durability: 5 years outdoors

Applications
- Indoor and outdoor usage
- Excellent for harsh environments
- Ideal for longer-term marking needs

What is my sign printed on and will it last?

Along with looking great, your sign should last as long as it’s needed. The material depends on where your sign is going to be displayed. For indoor, choose light-duty materials; for harsh environments and long-term/extended outdoor exposure, choose from our selection of durable materials listed below.
Safety Signs & Labels

Admittance & Exit

**Signs**

- **DANGER**
  - Authorized Personnel Only
  - Authorized Personnel Only
  - Authorized Personnel Only beyond this point
  - Do not enter

  - Employees only
  - Keep this door closed
  - Monitored by video camera
  - No admittance
**Lighted UL LED Exit Signs**

- Light the way of egress routes with illuminated EXIT.
  - Long-life, energy efficient, LED lamps, rated at 25+ years
  - Ceiling, end, or surface mount
  - Emergency style includes rechargeable battery back-up to keep sign lit for 1 1/2 hours during power failure
  - Red, 6" letters with knock-out left and right arrows
  - Hardwire connection to reliable electrical source required
  - 120 or 277 field selectable inputs

**Thermoplastic Exit Signs**
- Scratch- and corrosion-resistant plastic housing
- Measures 7 1/2" x 12 1/4" x 1 3/4"
- UL924 listed

Glow-in-the-Dark UL Exit Signs

The Next Generation in Technology

UL Glow Exit Signs store energy from virtually any artificial light source. When properly charged, UL Glow Signs will glow for over six hours in the event of a blackout. Low-profile, non-radioactive signs can be used for both high-level and low-level applications, and require no electrical hook-up.

- Recyclable
- Energy-saving
- Easy to install
- Maintenance free, 25+ year life

Meets The Following Standards:

- Meets NFPA Life Safety Code 101 and OSHA requirements
- Meets current Building Codes: IBC, ICBO, BOCA and SBCCI, NFPA 5000
- ICC ES report #ER-6040
- California State Fire Marshal listing #6200-1617; 100
- City of Los Angeles Research Report: RR 25531 (CSI #16530)
- Ontario Building Materials Evaluation Commission
- Authorization Report BMEC # 03-12-291

Steel Case Style

- 50-ft. viewing distance
- Glow-in-the-dark letters on your choice of three background colors
- Photoluminescent panel is housed inside a durable steel casing
- "Punch-out" directional arrows included
- Surface, flag, or ceiling mount
- Sign size: 8 1/4"H x 15 1/4"W x 1/4"D
- Letter size: 7"H x 7/8" stroke

When ordering, specify case color:
Red – RD, Green – GN, or Black – BK.

Cross Barrier

Cross out open entryway to a Confined Space.

- Crossbuck design fits onto bolt pattern of vertical confined space entry
- Attention-getting diagonal red-white stripes are surface-printed and protected by laminate film
- Adjustable crossbuck pivots flat for easy transport and storage
- Crossbuck arms measure 6" x 42" with 1.5" x 9" slotted cutouts at each end
- 11.5" x 11.5" octagonal sign is printed on 0.055" polyethylene plastic
- Fits 22" to 38" outside bolt-to-bolt
- Crossbucks available in two materials:
  - **Standard** style is 0.060" polycarbonate plastic – durable to withstand initial impacts and scratches
  - **Heavy-Duty** style is 0.118" Poly-Aluminum – combines aluminum and thermoplastic core for high strength and impact protection

* To verify proper fit of the Barrier for your entryway, measure the length across the entryway from bolt to bolt; then measure the bolt diameter and compare to slot width.

Permit Holder Board

Board communicates Confined Space requirements and holds related permits.

- Hang or set board near or at entrance of confined space to be readily seen by all
- Features large sign legend with clear acrylic pocket
- Holds 8.5" x 11" entry permit sheets (available separately)
- Constructed of durable 0.125" thick PVC
- Measures 12"H x 19"W with mounting holes
- Not recommended for outdoor use

  - High Voltage
  - High Voltage Peligro
  - High Voltage Peligro Above
  - Alto VoltaJE
  - Alto VoltaJE Arriba
  - Lock Out Equipment Before Entering

- **CAUTION**
  - Area in Front of This Electrical Panel Must Be Kept Clear For 36 Inches. OSHA-N.E.C. Regulations
  - Lock Out for Safety

- **NOTICE**
  - Electrical Room No Storage Permitted

**Available Materials**
- Adhesive Vinyl (Each)
- Polyester Laminated Vinyl (Each)
- Polyethylene Plastic (Each)
- Aluminum (Each)

**Available Sizes**
- 7" x 10" (0710)
- 10" x 14" (1014)
- 14" x 10" (1410)

**How to Order Signs**

1. Select Material Code: PVS
2. Select Size Code: 0710 or 1014 or 1410
3. Select Sign Base Part Number: D7130
4. Combine Codes in Specific Order for Complete Part Number: PVS0710D7130

**Roll of Signs**

Keep multiple safety signs for on-the-spot placement.

- Convenient, portable and economical
- 7" x 10" signs are surface-printed on 0.004" vinyl with permanent acrylic adhesive back
- Matte material is moisture-resistant
- Compact roll protects additional sign versions underneath
- Simply peel-and-stick; adheres to most surfaces
- Available in two roll size options: 50 per roll and 100 per roll
Labels

Arc Flash Protection Labels

Post labels clearly identifying electrical hazards to protect workers from arc flash, shock and electrocution.

- Bold type and graphics to be clearly seen
- Labels define specifics of electrical hazards and appropriate PPE

3. Combine Codes in Specific Order for Complete Part Number: PVMS0503D3120

Available Materials

- Adhesive Vinyl (Pkg. of 5)
- Polyester Laminated Vinyl (Each)
Voltage and Fiber Optic Markers

- Available in Adhesive-backed vinyl and Pre-coiled polyester protects legend with excellent life and adhesion properties
- Indoor/outdoor rated for resistance to UV light, chemical atmosphere, and abrasion
- Black on orange labels provide a highly visible warning for electrical hazards
- Temperature Range: -40°F to 250°F

Voltage Marker Books

- Black on orange labels provide a highly visible warning for electrical hazards
- Indoor rated economical general purpose vinyl
- Excellent adhesion properties when applied to a clean, dry surface
- Temperature Range: -40°F to 200°F

To Order Adhesive-Backed:
Add size code after part number. Available sizes AY, BY, CY.

Electrical Labels in Dispenser

- Laminated polyester label protects legend from abrasion and chemicals
- Indoor/outdoor rated for resistance to UV light, chemical atmosphere, and abrasion
- Excellent life and adhesion properties
- Temperature Range: -40° to 250°F
- 200* labels/dispenser
  - PLD-57, 300 labels/dispenser
  - PLD-60, 100 labels/dispenser
  - PLD-71, 150 labels/dispenser

Conductor Identification Labels

- Pre-printed polyester laminated label protects legend from abrasion and chemicals
- Indoor/outdoor rated for resistance to UV light, chemical atmosphere, and abrasion
- Excellent life and adhesion properties
- Temperature Range: -40° to 250°F
- Package of 10 sheets

Electrical Symbol Labels on Cards

- Pre-printed black on yellow with adhesive back vinyl cloth
- Conformable material with repositionable adhesive allows label to be removed and reused or used in temporary applications
- Indoor/outdoor rated for durability, high temperature resistance, and dimensional stability for rough or textured surfaces
- Temperature Range: -50° to 170°F
- Packages of 10 cards

Glow Clear-Shield Signs

Contemporary Clear-Shield signs look good in regular light and perform in the dark.
• Architectural-style signs for the office as well as industrial environments
• Printed on photoluminescent film
• Can be seen when power goes out
• Sub-surface protected from top wear
• Mounts with double-sided adhesive foam tape (included)

Projecting Signs

When you need identification, location and direction, signs can be seen from various angles for extra visibility.

Hang signs along hallways, stairways, corridors, and doorways. Projecting Signs are 0.100” thick high-impact plastic with images on the two panels that are covered by a UV protective coating. Flanged edges have pre-drilled mounting holes. Wall mount with screws or self-adhesive foam tape (both included).

3D Signs
Project 45° from the wall, provide optimum viewing from the front and sides.

90D Signs
Project 90° from the wall, are viewed from either side.

*SDS - Safety Data Sheets
Sign Panels – Blank Space for Custom Messages

Sub-Surface Printed Adhesive Polyester (Type PPS):
- High quality signs for use indoors and outdoors
- Excellent resistance to UV light, chemical atmosphere and abrasion
- Excellent life and adhesion properties
- Printed graphics are protected by clear polyester laminate
- Temperature Range: -40° to 275°F

Rigid Polyethylene (Type PRS):
- Rugged signs for indoors and outdoors
- Abrasion resistant
- Used where adhesives will not work
- Can be used with Panduit Thermal Transfer Desktop Printers and Easy-Mark™ Labeling Software to create your own custom signs
- Print your own legend on clear polyester tape with the TDP43ME Thermal Transfer Desktop Printer and adhere label to adhesive or non-adhesive sign panel
- Can also be used with Panduit Die Cut Letter and Numbers
- Temperature Range: -105° to 250°F

Laser Printable Adhesive Signs
- Signs can be printed with a standard laser printer
- Indoor polyolefin pressure sensitive signs with square corners on stay-flat liner
- 25 signs per package

Self-Laminating Adhesive Sign Carriers
- Indoor/outdoor rated for resistance to UV light, chemical atmosphere and abrasion
- Excellent for applications where adhesives will not work
- Temperature Range: -40° to 150°F
- 5 carriers/pkg.
Choose the Right Tag Material

Select a material based on your application requirements to ensure your message is conveyed clearly and effectively.

Poly Cardstock (PCT)

Pulp-free tags have no wood pulp or paper content, unlike standard cardstock tags, and are available at an economical price.

**Material Features**
- Thin, pliable 0.010" poly-based tags will not crack, distort, or shrink.
- Waterproof and tear-resistant from incidental pulls and snags.
- Can be printed on both sides.
- Scuff-resistant matte surface is easy to write on with pen or marker.
- 3/8" non-reinforced hole.

**Applications**
- Indoor usage.
- Non-reinforceable hole.

Laminate Plastic (PCTL)

Nearly indestructible tag is made to withstand tough, abusive conditions.

**Material Features**
- 0.010" cardstock tag sealed by a thick, 0.007" laminate on both sides – right to the edges – to protect the printed image.
- Tear-proof, weatherproof and chemical-resistant.
- Durable to withstand dirt, grease, liquid splashes and rough handling.
- Scratch-resistant matte-finish laminate surface is easy to write on with pen or marker.
- 3/8" hole, reinforced by a pull-proof metal grommet.
- Includes 7.4", min. 50-lb. strength, black nylon cable ties (one per tag).

**Applications**
- Indoor and temporary outdoor usage.
- Chemical and dirty/greasy environments.
- 2 years outdoors.

Rigid Plastic (PVT)

High-strength rigid plastic tag is ideal for use in tough industrial environments – resists chemicals, tears, and abrasions.

**Material Features**
- 0.015" thick rigid plastic tags are relatively bendable.
- Matte surface is easy to write on with pen or marker.
- Can be printed on both sides.
- 3/8" hole, reinforced by a pull-proof metal grommet.
- Includes 7.4", min. 50-lb. strength, black nylon cable ties (one per tag).

**Applications**
- Indoor and temporary outdoor usage.
- Chemical and dirty/greasy environments.
- 2 years outdoors.

Self-Laminating Tags (PST)

Protect written messages and photos when your life is on the line.

**Material Features**
- Write information and insert a photo (where applicable), then laminate your own tag.
- Protection from moisture, chemicals and dirt.
- Prevents tampering with the information.
- Dual self-laminating polyester flaps pre-attached at the top.
- Reinforced by a pull-proof metal grommet.
- Includes 7.4", min. 50-lb. strength, black nylon cable ties (one per tag).

**Applications**
- Indoor and outdoor usage - when the most durable tags are required.
- Chemical applications and tough industrial settings.

Safety Tags

Our selection of safety tags is just as diverse as your workplace.

- Prevent the potential for accidental injury and property damage.
- Alert, call out or draw attention to temporary hazards.
- Required critical tool in safety, performance and maintenance operations.

We Have What You Need

Look to us for the tags that you need! In addition to standard OSHA safety tags, our comprehensive selection of safety tags incorporates key categories like Lockout/Tagout, Equipment Status and Record Inspection.

Safety Tags Identify Temporary Hazards

Safety Tags...
- Call out attention to hazards.
- Prevent the potential for accidental injury or property damage.
- Identify and inform that a hazardous condition exists.

Attach and hang the tags as close as possible to the hazard situation where the tag can be readily seen. Tags are to remain in-place until the hazard is eliminated or the hazardous operation is complete.

The Occupational Safety and Health Administration (OSHA 29 CFR §1910.145) and American National Standards Institute (ANSI Z535) provide specifications, designs, applications, and uses of accident prevention tags. Tags can be printed in a variety of colors and messages to meet your needs. They are typically designed with an attention-getting signal word for a degree of hazard along with a specific message and areas to write in particular information.

Safety tags are an inexpensive, fast solution for temporary marking and identification of hazards.

*Note: A tag shall not be used in place of a permanent sign or label for hazards in normal use, operation or maintenance.*
Standard Safety Tags

Choose from two back message styles, noted under each part number as A and B.

2. Select Tag Base Part Number: 1060
3. Select Package: 5/Pk - (blank); 25/Pk - -Q
4. Combine Codes in Specific Order for Complete Part Number: 5/Pk – PST-1060; 25/Pk – PST-1060-Q
Tag Holder Systems

Insert, enclose and contain your status alert tags in a secure tag holder system.

- Mount durable plastic holder and insert tag to display alert status
- Default “DO NOT USE” message shows when no tag is inserted
- Available in two styles:
  (A) Secure-Status – Durable plastic holder measures 10"H x 3 1/2"W x 3/8" overall with 5 1/2"H x 2 3/4"W clear view front window. Upper jaws close to fit onto post rails or poles up to 2 3/8" diameter or through any 1/2" opening to lock out a device. Accommodates up to four padlocks (sold separately).
  (B) Status Alert – Durable 0.060" thick plastic holder measures 12"H x 4 1/2"W overall with a 2 3/4" diameter opening at top. Insert tag into the 5 1/2"H x 4 1/2"W clear polycarbonate plastic front pocket, secure with nylon tie (sold separately) and mount in a visible location with large opening at the top.

(A) Secure-Status Holder

(B) Status Alert Holder
Thick Plastic Tags

This tag can take the abuse of the harshest industrial environment. It’s thick, tough, and rigid to withstand tugging, pulling, twisting and bending.

- Made of tough recycled polycarbonate
- Relief text increases visibility
- Double-sided
- Polycarbonate plastic resists most corrosive environments
- Write on these tags with permanent marker
- 3/8" hole without grommet meets dielectric requirements
- Measures 5 7/16" x 3 1/16" x 1/8"
- Available in packages of 5 and 25
Scaffold Status 3 'n 1 Fold Tag

Quickly and conveniently change the safety status of your scaffold with our 3 'n 1 Fold Tag.

- Display DANGER, CAUTION or ATTENTION messages all from the same tag with a simple fold
- Ideal for use with Secure-Status or Status Alert Holder (sold separately)
- Front and back display the same color with related info
- Folded tag size: 5 3/4" x 3 1/4". Unfolded size: 11 1/2" x 6 1/2"
- Available in Poly Cardstock (PCT) or Rigid Plastic (PVT) in packs of 5 or 25

Loop Strap Tags

Attach tags by the self-fastening strap for quick marking of hazards.

- Hangs on its own strap by looping the vertical strap around itself
- Flexible 0.014" polyethylene plastic
- 5 1/4" x 3 1/4" tag body with the strap being 1 3/8"W x 6"L x 7/16" wide opening
- Resists grease, dirt, and moisture
- Message is printed on one side only
- Can be written on with permanent marker
- Available in packs of 25

Aluminum Inspection Record Tag

- Four-year aluminum tag is made to withstand the inspection period
- 0.020" Aluminum
- Pack of 5
- Meets OSHA 29 CFR §1910.157(e)
Blank Tags

Blank tags allow you to write any message in pen, pencil or marker. Use for coding, marking, quick identification, production status or inventory.

Manila Cardstock Tags

- 0.0013" tags with patch-reinforced 3/16" hole
- Pack of 100

Manila Cardstock Tags

- 0.0013" coated tags with patch-reinforced 3/16" hole
- Pack of 100

Example: Part No. PCT-1107 + Color Code B-C = PCT-1107B-C

White Tyvek® Tags

- Lightweight, pressure-bonded fibers
- Flexible 0.075" thick material is abrasion- and tear-resistant
- Withstands moisture, chemicals, and frequent handling
- Patch- and metal-reinforced 3/16" hole is available plain or looped with 12" galvanized steel wire
- Pack of 100

How to Order Tags:
1. Select Material Code: PCT-
2. Select Tag Base Part Number: 1030
3. Select Package: 5/Pk – (blank), 25/Pk – -Q
4. Combine Codes in Specific Order for Complete Part Number: 5/Pk – PCT-1030; 25/Pk – PCT-1030-Q

Self-Laminating Safety Tag Carriers

- Cut out paper to fit and insert into the self-laminating carrier allows tags to be resistant to mild chemicals and acids
- Sturdy brass grommet provides extra durability
- Panduit PLT2S (7.40") nylon ties included for quick and easy installation
- Meet OSHA Standard 1910.147 for lockout tag 50 lb. pull force requirement

Create Your Own Cardstock Tags

- Create your own economical cardstock tags on ink jet printers
- Economical solution for temporary, indoor tags
- Cardstock is semi-rigid tag with perforation for easy tag separation and punched hole for hanging
- Tags measure 3" x 5"
- 4 tags/sheet; 25 sheets for 100 tags per package
- Can be used with Self-Laminating Safety Tag Carrier for extra durability

**Pan-Ty® Cable Ties – Nylon 6.6**

- For indoor use
- Versatile locking cable ties can be used in countless applications
- One-piece construction for consistent performance and reliability
- Lowest threading force of any one-piece cable tie in the industry
- Curved tip is easy to pick up from flat surfaces and allows faster initial threading to speed installation

**Pan-Ty® Marker and Flag Ties**

- Nylon 6.6 material for indoor use
- Weather resistant material has greater resistance to damage caused by ultraviolet light – indoor or outdoor use
- Flame retardant material has a flammability rating of UL 94V-0 – for indoor use
- Used to fasten and identify bundles at the same time
- One-piece construction for consistent performance and reliability
- Can be marked with Panduit marker pens or computer printable labels
- Curved tip is easy to pick up from flat surfaces and allows faster initial threading to speed installation

**Pan-Steel® Polyester Fully Coated Cable Ties – MLTFC Series**

- Polyester coating available in two color options provides visual indication for easy identification
- Self-locking head design speeds installation and locks into place at any length along the tie body
- Heavy cross section
- Polyester coating provides additional edge protection and prevents corrosion between dissimilar metals
- AISI 316 stainless steel for the most corrosive environments
- UV resistant, low smoke, halogen-free material
- Temperature Range: -40° to 302°F

### Pan-Ty® Locking Cable Ties – Polypropylene – Distinctive Green Color

- For chemical resistance where high loop tensile strength is not required especially in the presence of hydrochloric acid, salts, and bases
- For indoor use
- Material requires lowering the tool setting (see table below)
- One-piece construction for consistent performance and reliability
- Lowest threading force of any one-piece cable tie in the industry
- Curved tip is easy to pick up from flat surfaces and allows faster initial threading to speed installation

Cable Tie Tools – Tool Controlled Tension and Cut-Off

- Use in production, maintenance, or construction applications
- Tool controls tension provides flush cut-off and speeds installation to lower installed cost
- Lightweight and balanced
- Easy to change tension adjustment and easy to operate
- A combination of design, operation, and construction features, provides a long service life
- No special maintenance required
- Ergonomic design lowers the risk of repetitive motion injuries
- Lowest activation and impact to installer’s hand

4-Way Adhesive Backed Cable Tie Mounts

- Allows cable tie entry from all four sides
- Available in multiple sizes to match application load requirements
- Provides 2-up for fast and easy liner removal to speed installation

Rubber Adhesive
- General purpose
- Fast strength adhesion dwell time 2 hours after installation, prior to loading
- Temperature Range: -20° to 120°F

Acrylic Adhesive
- For high temperature locations and exposure to UV rays
- Maximum adhesive strength after 8 hours dwell time, prior to loading
- Temperature Range: -20° to 180°F

Pan-Steel® Strapping – MS Series

- Fold over design provides high-retained tension in mechanical fastening and cable bundling applications
- Can be used in a wide range of indoor, outdoor, and underground (including direct burial) applications
- Smooth surfaces and rounded edges assures cable protection and worker safety
- AISI 201 stainless steel for general-purpose applications
- AISI 316 stainless steel for the most corrosive environments
- After tensioning, cut end is locked inside with low profile buckle – no sharp edges
- Recommended installation tool – BT75SDT

Hand Operated Installation Tool for MS Series Strapping

- Screw drive tension mechanism provides high tension with minimal effort, reducing operator fatigue
- Heavy duty construction offers a longer service life
- Allows quick side entry of the strap into tool to speed installation
- For use with 0.75" width strapping only
- Screwdriver required for buckle closure (not included)
Pre-Printed Wire Marker Books

- Convenient, pocket-sized book
- Full size markers are perforated and can be torn into half size markers for both ends of conductors
- Terminal block markers are included to properly identify connectors
- Ten pages of markers per book
- Pre-printed black on white vinyl-cloth, adhesive back markers
- Temperature Range: -30° to 170°F
- Marker sizes:
  - Full size marker – 0.22" x 1.38". Maximum wire O.D., 0.38"
  - Half size marker – 0.22" x 0.69". Maximum wire O.D., 0.19"
  - Terminal block marker – 0.22" x 0.25"
- Indoor/outdoor rated conformable label can be removed and reused
- Durable, temperature-resistant, and dimensionally stable for rough, textured surfaces
- Resists oil and abrasions

Pre-Printed Wire/Cable Marker Tape Dispenser

- Flexible polyester marker tape conforms tightly to wires/cables
- Dispenser allows marker tape to be cut to the exact length required for marking any size wire/cable
- Durable plastic dispenser can be attached to tool belt for industrial use
- Character height is 0.11"
- Pre-printed black on white, adhesive-back polyester
- Indoor/outdoor rated is resistant to UV light, chemicals, and abrasions
- Excellent long lasting adhesion properties
- Temperature Range: -40° to 250°F

Blank Self-Laminating Wire/Cable Marker Dispensers

- Self-laminating labels are provided in handy dispenser which protects markers when not in use
- Clear section of marker overlaminates and protects write-on legend
- Quick, easy to use for smaller installations and maintenance
- White, adhesive back write-on vinyl
- Indoor/outdoor rated conformable material for general wire/cable labelling
- Temperature Range: -40° to 150°F

**Easy-Mark™ Labeling Software**

- Quickly and easily generate labels
- Market-specific labeling application tools assist in creation of identification solutions for data centers, network applications, panel shops, and construction and maintenance applications
- Saves times and money (up to 75%) with features such as WYSIWYG user interface, data import, symbol import, and pre-loaded formats
- Upgrades available at [www.panduit.com](http://www.panduit.com)
- Site license available for up to five additional installs per license

**System Requirements:**
- 64 MB hard drive space and 64 MB RAM (256 MB RAM recommended)
- Windows* 2000, XP, Vista, 7, 8, or 10
- Mouse or compatible pointing device
- Microsoft.NET Framework 2.0 or higher
- CD-ROM drive or USB Port

*Windows is a registered trademark of Microsoft Corporation in the United States and/or other countries

**Laser/InkJet Self-Laminating Wire Cable Marker Labels**

- Indoor/outdoor rated for durability; high-temperature resistance, and dimensional stability; does not stretch or easily tear; preferred method for wire/cable labeling
- Polyester label is white* with print-on area
- Order number of labels required in multiples of Std. Pkg. Qty
- Meets ASTM E-595 for air space handling (white only)
- Temperature Range: -65° to 225°F

Thermal Transfer Desktop Printer and Accessories

- Compact, lightweight design enables use in office or remote locations
- 300 dpi thermal transfer printer creates crisp, clear legends with superior legibility
- Up to 2.00 inches per second print speed for fast label production
- Use to print a wide variety of self-laminating labels, component labels, non-laminated labels, heat shrink labels, marker plates and continuous tapes up to 4.00 inches wide
- Easy-Mark™ Labeling Software and hybrid ribbon included with printer

Ribbons for Use with the TDP43ME Thermal Transfer Desktop Printer

- Hybrid – Recommended for use with self-laminating, heat shrink, component and non-laminated labels
- Resin – Recommended for use with component labels, marker plates, and continuous tape
- 4.3” x 240-ft. (110mm x 73m)

<table>
<thead>
<tr>
<th>Part No.</th>
<th>Description</th>

</tbody>
</table>

*For 2.5” wide ribbons, replace 4 in part number with 2. For example, the part number of a 2.5” wide black hybrid thermal transfer ribbon is RMEH2BL.

Thermal Transfer Continuous Label Tapes

- Tapes offer crisp, clear legends with superior legibility
- Indoor/outdoor rated
- Conformable flat label applications for safety and facility identification
- Can be overlaminated to increase durability
- Use thermal transfer resin ribbon
- Vinyl Tapes: 4” x 100-ft.
- Reflective Tapes: 4” x 50-ft.
- Temperature Ranges:
  - Vinyl: -58° to 176°F
  - Polyester: -40° to 302°F
  - Reflective: -40° to 180°F

Thermal Transfer Printable Arc Flash Labels

- Provide employees with the highest degree of safety through proper identification and communication
- Clearly visible and recognizable hazard information to communicate arc flash hazards present
- Labels are constructed of durable polyester designed to withstand UV exposure, outdoor use, water, abrasion
- Custom Arc Flash Hazard Labels can be printed using Panduit labeling software with desktop thermal transfer printers
- Use thermal transfer resin ribbon

Custom Die-Cut

- Vinyl Tapes, 4” x 100-ft.
- Reflective Tapes, 4” x 50-ft.
- Non-Printable Clear Overlaminate Tapes, 4.25” x 100-ft.

PanTher™ Hand-Held Thermal Transfer Printer and Accessories

- Cut-to-length functionality eliminates label waste and label trimming labor
- Partial cut feature available to provide tear-apart strips of labels
- P1™ Label Cassette contains an integrated memory device for automatic formatting, recall of last legend used, and number of labels remaining in the cassette
- Market specific labeling tools simplify label creation for electrical components, panel building, and construction and maintenance
- USB interface for importing data, system upgrades, and printing from a wireless laptop or desktop computer
- Prints self-laminating labels, heat shrink tubing, die-cut component labels and continuous tapes
- Fast loading label cassette includes both label material and ribbon to make changing labels easy
- Large graphic display with backlight for improved visibility

Metal Embossing Hand Tool and Tape System

- Multi-functional cutting die design creates embossed marker plates with raised cable tie slot in one step instead of three, for faster installation
- Lightweight, compact, and portable, allows user to create custom length identification on demand at remote job sites
- Embosses 3/16" characters (A-Z, 1-9, /, ( ) onto stainless steel or aluminum tape, to improve visibility in applications that are subjected to dirt or paint

### Stainless Steel and Brass Marker Plates and Tags

- Provides permanent identification of pipes, conduit, valves, cables and equipment in harsh environments
- Designed for use with Panduit’s Pan-Steel® Stainless Steel Cable Ties for fast installation at lowest installed cost
- All marker plates/tags can be embossed or laser etched with Panduit Factory Custom Marking Service
- Designated plates feature easy feed design with a raised slot to simplify cable tie installation and improve productivity
- Temperature ranges:
  - Stainless Steel Marker Plates, Tags, & Cable Ties: -112° to 1000°F
  - Brass Tags: -112° to 302°F

### Metal Indenting Machine

- Provides quick, easy, and permanent identification with Panduit’s Pan-Alum™ Marker Plates and Cable Ties and Pan-Steel® Stainless Steel Marker Plates, Tags, Cable Ties and Straps
- Automatic table indexing advances material forward for convenience and improved productivity
- New, improved design features aluminum base and durable construction
- 3/16" character wheel
**Pipe Markers**

Marking and identification of contents in pipes and piping systems is important to safety and maintenance. Pipe markers are to visibly identify contents, flow directions, and hazard classification, thus promoting a safe working environment.

Installation recommendations:
- Above or below center visual line of pipe
- Frequent intervals on straight pipe runs
- Close to valves
- Near branches and T’s
- Any change in direction
- Before and after pipe going through walls

<table>

**Self Stick Vinyl (PPMA)**

- 0.004" flexible vinyl marker has UV-resistant polyester overlaminate with high-tack, acrylic adhesive back
- Included arrow provides proper directional flow marking
- Durable, protective gloss surface withstands fading, abrasions, splashes, grease, dust, and dirt
- Service temperature is –20° to 176° F

**Snap On Pipe Markers (PPMS)**

- Precoiled, heavy gauge 0.020" rigid vinyl plastic is lightweight, yet durable to withstand tough industrial environments
- Fits over pipes with dirty, greasy, or rough surfaces or other less than perfect surfaces
- Easy to remove and reapply
- Service temperature range is –4° to 158° F (not recommended for hot pipes)

*Have self-adhesive leading edge for secure fit.
**Color Banding Pipe Marking Tapes**

Variety of colors are ideal for coding pipes.
- 0.005" tapes with self-adhesive back, no liner
- Service temperature range -20° to 140°F
- Available in 1", 2" and 3" widths
- 108-ft. rolls

Available colors with color code:
Red – RED, Green – GRN, Blue – BLU, Gray – GRY, Brown – BRN,

**Directional Flow Arrow Tapes**

Provide 360° visibility for flow direction, with repeated arrows on the tape’s length.
- 0.006" self-adhesive vinyl
- Available in 1", 2" and 4" widths
- 54-ft. and 108-ft. rolls

Available colors with color code:
Black/Yellow – BY, Green/White – GW, Blue/White – BLW,

**How to Order**
1. Select Material Code: Self Stick – PPMA
2. Select Pipe Marker Base Part Number: 1523
3. Select Size Code: 3/4" to 1 1/4" – A
4. Combine Codes in Specific Order for Complete Part Number: PPMA1523A
**Roll Tape Pipe Markers**

Easily mark pipes quickly at various locations along a piping system.

- 72 identical legends per roll, with perforations between each length
- Use in continuous lengths, or tear at perforations
- 0.006" vinyl with protective laminate surface
- Peel-off liner with self-adhesive back applies to smooth, clean, dry surface
- Service temperature is -20° to 140°F
- Available in 1" x 54-ft. or 2" x 54-ft. rolls

**Part No. Legend**

- PPMR0102: AIR
- PPMR0101: AIR
- PPMR0144: AMMONIA
- PPMR0145: ARGON
- PPMR0103: BOILER FEED
- PPMR0146: CAUSTIC
- PPMR0149: CITY GAS
- PPMR0150: CITY WATER
- PPMR0151: COLD WATER
- PPMR0105*: COLD WATER RTN
- PPMR0110: COLD WTR SUPPLY
- PPMR0152: COMPRESSED AIR
- PPMR0153: COMPRESSED AIR

**Roll Form Pipe Markers**

Wrap around virtually any size pipe when you have multiple pipes or pipes of unknown sizes.

- Unroll, measure, and easily cut to length on-site for proper fit
- 0.004" gloss, overlaminated poly vinyl marker wraps to adhere to itself
- High-tack, acrylic adhesive back stays on dirty, greasy, and rusty pipes
- Legend and arrow repeated, upright and upside-down, for universal direction and visibility
- Service temperature is -20° to 140°F
- Available 8" x 30-ft. or 12" x 30-ft. in rolls

**Part No. Legend**

- PPMR0028: AIR
- PPMR0029: ARGON
- PPMR0001: ASBESTOS FREE
- PPMR0003: CARBON DIOXIDE
- PPMR0002: CHLORINE
- PPMR0004: CITY WATER
- PPMR0006: COLD WATER
- PPMR0005: COMPRESSED AIR
- PPMR0007: CONTAINS ASBESTOS
- PPMR0008: DOMESTIC COLD WATER
- PPMR0009: DRAIN

---

**To Order:** Add size code after part number. Example: Part No. PPMR0102 + Size Code B = PPMR0102B

**Table:**

<table>
<thead>
<tr>
<th>Size Code</th>
<th>Pipe Diameter</th>
<th>Roll Size</th>

<td>Roll</td>
</tr>
</tbody>
</table>
**IIAR Ammonia Pipe Markers**

Meets IIAR guidelines for proper pipe marking as specified in Bulletin No. 114.

Identify Ammonia refrigeration piping and system components.
- 0.004" flexible vinyl, self-sticking markers have high-tack adhesive backed with liner
- One legend with directional flow arrows on each end to cut off for proper placement
- Glossy UV-resistant surface withstands dust, dirt and grease
- Service temperature range is -20° to 176°F
- Install onto clean smooth pipe surface

To Order: Add size code after part number.
Example: Part No. PPMA3001 + Size Code A = PPMA3001A

<table>
<thead>
<tr>

**Duct Markers**

**SUPPLY AIR**

Mark air flow and its equipment purpose in duct work systems.
- Single legend printed on poly overlaminated self-stick vinyl
- High-tack adhesive back
- Available in two sizes

**Medical Gas Pipe Markers**

Identify the contents of medical gas piping systems.
- 0.004" gloss vinyl, 3" x 3" marker with legend repeated five times, upright and upside-down for universal fit and visibility
- Adhesive backed and peel-off liner
- Adhere to pipes up to 3/4" OD size
- Service temperature is -20° to 140°F
- 20 markers per package

To Order: Add color code, then size code after part number.
Example: Part No. PPMA41 + Color Code BY + Size Code D = PPMA41BYD

Meets NFPA 99C-Section 4-3.5.4.1. and CGA Pamphlet C-9 Section 4.1 color requirements
1. Be Aware of the Lockout Regulations
Become familiar with the federal regulations known as The Control of Hazardous Energy (Lockout/Tagout).

2. Develop List of Machinery & Equipment
Survey your facility for all machinery and equipment that have the potential for requiring lockout.

3. Identify & Mark Energy Sources & Lockout Points
Locate and document start-up areas of energy sources, such as:
- Mechanical
- Electrical
- Hydraulic
- Thermal
- Pressure
- Process Control
- Stored Energy (gravity, springs)

4. Determine the Lockout Controls
Identify and document the necessary devices that isolate and lock out energy sources, and secure them for on-site use. Standardize the devices for various functions for proper identification.

5. Set up Lockout Training & Procedure Program
Develop, standardize, and document the lockout process for each energy source. Identify employees’ level of involvement in the program – those that are made aware, affected, and to perform the lockout procedures. Accomplish this through comprehensive training programs and certifications.

6. Implement the Lockout Program
Initiate and enact the lockout/tagout program in accordance with the training procedures. Post reminders and have the necessary lockout/tagout devices readily available.

7. Review Lockout Program
Identify and document changes to existing procedures and new energy sources that require lockout. Make corrections, changes, and additions to the program. Conduct periodic review of lockout procedures (required at least annually) to ensure they are up to date and requirements are being met.

Just shutting down or disconnecting equipment is not enough...Lockout/Tagout keeps employees safe by making it inoperable. Comply with OSHA Regulations and LOCK IT OUT!

Before repairs, servicing, maintenance, or set-up of machines and equipment can begin, prevent the unexpected — the accidental start-up!

Procedures, devices, and personnel must be set in place to prevent the serious injury or death that could occur when someone thinks something is safely off. To ensure machines and equipment remain inoperable means establishing a “program consisting of energy control procedures, employee training, and periodic inspections...” as described in the OSHA standard. The standard also identifies products used for achieving these goals, such as lockout and tagout devices.

Post signs, apply labels and tags...
...to warn and identify energy source areas and points requiring shut-down and lockout/tagout procedures.

29 CFR § 1910.147... The Control of Hazardous Energy (Lockout/Tagout)...requires the employers to establish a program and utilize procedures for affixing appropriate lockout devices or tagout devices to energy isolating devices, and to otherwise disable machines or equipment to prevent unexpected energization, start-up or release of stored energy in order to prevent injury to employees.

We offer solutions to help meet your lockout/tagout requirements and make your employees aware of the energy source hazards found throughout your facility. Look for products to meet your specific lockout needs on the following pages - ranging from lockout devices to training materials. Call us for consultation and on-site assessment of your lockout/tagout requirements.
Lockout Hasps

These devices provide the ideal solution when procedures require multiple workers on locked-out equipment.

Workers can be assigned a padlock (sold separately) with shackle diameter up to 9/32" to attach to the hasp before starting their task. Ensure the energy source stays locked out — with multiple workers’ padlocks in the holes of the closed hasp. Once each worker completes their task, they remove their padlock. The hasp cannot be removed until the last padlock is removed.

Aluminum Tag Hasps

Lock out more equipment with the large reach hasp made to withstand tough and abusive environments.

- Scissor-style hasp comprised of two high-strength 0.090" thick red anodized aluminum plates
- Accommodates up to six padlocks (sold separately)
- Crossover jaw ends prevent prying and tampering
- Get true 1 1/2" round reach with the full jaw opening
- Measures 7"H x 2 3/4"W
- Bold, contrasting red/white/black lockout hazard message labels on both sides — with space to write in necessary information
- Red octagon shape reinforces lockout status and conveys STOP

Double-Cross Aluminum Tag Hasps

Lock out equipment with large reach, pry-resistant hasps.

- Made of two red anodized, 0.090" aluminum plates
- Double-crossed, octagon-shaped jaws are offset to cross over one another when closed, preventing the hasp from being easily pried apart
- Openings provide optimal reach - 1 3/4" dia. on one end and 3/4" dia. on the other
- Measures 7"H x 3 1/8"W (2 3/4" in the body) with hazard message labels on both sides
- Red octagon shape reinforces lockout status and conveys STOP

Tag Hasp

Change out, insert, and secure a tag for each lockout situation with the Tag Hasp.

- 5 1/4" x 3" hasp fits in the palm of the hand
- Lightweight, all-dielectric plastic design
- STOP-shaped octagon front panel contains changeable Tab Tag (sold separately below)

Easy to use:
- Insert lockout tag over the top hole inside the front panel
- Close down the 2 1/4" octagon panel to hold the tag in place
- Insert the open end of the 1/4" wide loop to lockout the device
- Hasp hangs by the 1 3/8" x 2 3/4" closed oval loop
- Secures with up to three padlocks (sold separately)
- Red octagon shape reinforces lockout status and conveys STOP

Tab Tags

- Unique tag design fits over special octagon-shaped tab
- For use with Tag Hasp (above)
- Tag is secured when the device is in the locked position
- Show the full face of the tag at all times
- Tags measure 4 1/2" x 2 1/8"
- Durable, 0.015" rigid plastic material
- Pack of 25

Aluminum Hasps

Non-Sparking style

- Padlock keeps hasp closed until the last padlock is removed
- Red vinyl-coating
- Non-sparking aluminum
- Comes in 1" and 1 1/2" diameter openings
- Accommodates up to six padlocks (sold separately)
Circuit Breaker Lockout System

OSHA (Occupational Safety and Health Administration) mandates that all energy sources be turned off and locked out to protect employees from injuries caused by the accidental startup of equipment under repair and service. To support compliance with OSHA 1910.147, Panduit offers a complete line of high quality, Circuit Breaker Lockout Devices to ensure that electrical energy sources are isolated for optimal work place safety. These Circuit Breaker Lockouts are part of an extensive line of innovative safety devices designed by Panduit to protect employees from risks associated with all forms of hazardous energy, while meeting safety and regulatory requirements.

**PowerLOK™ Circuit Breaker Lockout Devices**

Panduit’s new PowerLOK™ Circuit Breaker Lockout Devices include many innovative features to provide a versatile, easy to use lockout/tagout device. These devices can be applied to single or multi-pole circuit breakers (such as 120/277V breakers) to prevent the breaker from being turned back on; for safe performance of maintenance or service in accordance with lockout/tagout procedures.

- Two Metal Contacts
- Fits Single and Multi-Pole Circuit Breakers
- Two-Position Padlock Design
- Two-Piece Construction

**Universal & I-LINE™ Circuit Breaker Lockout Devices**

- Quickly locks out circuit breakers (such as 120/277V breakers); ideal for industrial and harsh applications
- PSL-CB and PSL-CBIL can be installed using a screwdriver
- PSL-CBNT and PSL-CBILNT can be installed by hand, with no tool required

**Large Handle Circuit Breaker Lockout Device**

- Quickly locks out large molded-case circuit breakers (such as 480/600V breakers)
- Can be installed by hand, with no tool required

**Large Handle Lever Lockout**

Position Mounting Rail  
Secure Slide Set  
Slide Stop Bar into position over breaker

**Lock out large handle or lever circuit breakers.**
- Also works on up to three individual circuit breakers, including a variety of flip-lever switches
- Constructed of red dielectric ABS plastic and incorporates the octagon shape to convey **STOP**
- Consists of three parts: Mounting Rail, Slide Set and Stop Bar
- Installs without drilling using 3M™ VHB™ industrial bonding tape (included)*
- Additional mounting rails available for use on multiple panels
- Dimensions: Mounting Rail: 5”L x 3/4”W x 1/4”D, Slide Set: 2”L x 2”W x 1 3/8”D, and Stop Bar: 5”L x 1”W x 1”D
- Padlock and tag sold separately

*For best adhesion, ideal bond time is 24 to 72 hours prior to lockout application

**Multiple Lockout Device**

- Device can be used alone as a lockout hasp or with provided 0.19” diameter cable to lock out electrical disconnects, gate valves, or large cumbersome devices
- Compact and easy to install
- Constructed of rugged polycarbonate and stainless steel providing strength, durability, added security, and corrosion resistance

**Cinch Cable Lockout**

Universal spooling cable locks out multiple devices at one time.
- Unique, compact internal spooling feature
- Lock out multiple devices quickly, neatly, and easily
- Simply extend and loop the 6-ft. nylon-coated steel cable through several devices to lock them out; then insert the cable end back into the device to cinch tight
- When cable is cinched tight, device can then be secured with a padlock (sold separately)
- Durable plastic, octagon-shaped device measures 3 1/2” x 4 1/4” x 1 1/4”
- When finished, spool the cable back inside the device for neat, easy storage
- Octagon shape reinforces lockout status and conveys **STOP**

**Twist & Turn Cinch Cable Lockout**

Run the cable through various devices; then, with a quick twist of the hasp, cinch the cable to prevent unauthorized access.
- Easy-to-use cable and cinch lockout hasp solution
- Polycarbonate, compact hasp is comprised of two 3” dia. x 1 1/2” thick rotating halves with 6-ft. red plastic-coated steel cable
- Visible red octagon shape reinforces the lockout situation

Gate Valve Lockout Devices

- Gate valves regulating hydraulic, pneumatic, and chemical energy can be locked out quickly and easily
- Accommodates valve handles ranging from 1.00 inch (25.40mm) to 13.00 inches (330.20mm) in diameter
- Constructed of rugged polypropylene providing strength, durability, and added security
- Secure with padlock and tag (sold separately)

Ball Valve Lockouts

- Stop valves from being turned with unique gull-wing design ball valve lockout.
  - Quickly and simply secure over any closed ball valve handle
  - Secure with padlock (sold separately)
  - Bright red, plastic device works with ball valve handles either perpendicular or parallel to pipe
  - Includes red “Danger Locked Out” label
  - Red octagon shape reinforces lockout status and conveys STOP

Pneumatic Energy Lockout Device

- Pneumatic energy devices can be locked out quickly and easily without costly tool modifications or inconvenient in-line valves
- When installed on the male pneumatic fitting, prevents the ability to engage into the female fitting
- Universal compact design makes the pneumatic lockout device easy to transport
- Five openings install on almost any fitting, even in tight spaces
- Rugged stainless steel construction offers superior strength, durability, added security and corrosion resistance
- Overall dimensions are 3.5” (88.9mm) diameter x 0.10” (2.54mm) thick

Versatile Pneumatic Lockout

- Keep employees safe with this rugged, tamper resistant method to lock out your pneumatic equipment/source.
  - Device has seven openings ranging from 9/32” to 1/2” diameter that accommodate most male and female pneumatic end-fittings
  - Clear cover allows user to see what is locked out
  - Constructed of polycarbonate with steel hinge for tamper-resistance and durability
  - Red octagon shape reinforces lockout status and conveys STOP
  - Overall dimensions are 3 7/8” x 3 1/4” x 1 7/8”

**Push Button Cover**

Prevent accidental startups of push/pull operation buttons, such as emergency stop buttons.

- Consists of one semi-permanent aluminum ring and a clear view polycarbonate cover
- Cover is removable for easy storage
- Cover and aluminum ring for tamper- and impact-resistant
- Overall dimensions are 2 1/8"H x 2"W x 2 1/2"L
- Secures with a padlock (sold separately)

</table>

**Toggle-Switch Cover**

Prevent access to a toggle switch, yet still see its position.

Quick and easy to install, tough lockout includes clear, industrial strength 3M™ VHB™ tape for secure adhesion*.

- Fits over toggle, button, or knob switch
- The top half can be removed and stored when not in use
- Clear polycarbonate maintains visibility of the switch position
- 3 1/2” x 1 1/2” base which covers up to 3/4” x 1”H switch area
- Secures with a padlock (sold separately)

* For best adhesion, ideal bond time is 24 to 72 hours prior to lockout application.

Network Security Devices

Network security devices block unauthorized access to existing network infrastructure in the data center, at the workstation, in the industrial automation panel, and more. These devices save time and money associated with network downtime, data security breaches, infrastructure repair, and hardware replacement due to theft. The innovative design of the blockout device snaps into modules and is released with the removal tool, ensuring the safety and security of the network infrastructure. The versatile design of the lock-in device is compatible with most existing patch cords, faceplates, patch panels, IP cameras, and other IP devices. It is also compatible with VoIP phones to help prevent unauthorized tampering with connectivity to ensure E911 continuity.

Jack Module Blockout Device

- Blocks unauthorized access to jacks and potentially harmful foreign objects, saving time and money associated with data security breaches, network downtime, repair and hardware replacement
- Compatible with most RJ45 and USB Type 'A' jacks to accommodate a variety of applications and does not interfere with jack contacts separation and punched hole for hanging
- Can be installed/removed without interfering with adjacent jacks or hardware
- May only be released with the special removal tool, ensuring the safety and security of your network infrastructure

RJ45 Plug Lock-In Devices

- Tamper-resistant design blocks unauthorized removal of cable, IP phone, other networking equipment or critical connection
- Deters unauthorized users from moving or stealing VoIP phones helping to maintain E911 service
- Compact design does not interfere with adjacent jacks, even in high-density applications

Plastic Group Lock Box

Small, portable group lock box goes with you on the job – from the office to the production floor.

- Slots in lid to insert and store keys of locked-out devices
- Unique twist-to-turn lid for secure close
- Inner pry guard prevents tamper access
- Lid has two see-through windows and carry handle
- Octagon-shaped box in red conveys the STOP message
- 7 3/4" x 7 3/4" x 4" box is durable, impact-resistant plastic

### Steering Wheel Covers

**Prevent others from driving a vehicle that is disabled or undergoing maintenance.**

- Flexible, reinforced vinyl cover
- Backside of upper half has stitched pocket to slip over steering wheel
- Secure cover to steering wheel to prevent removal
- 3/8" metal grommeted hole at bottom accommodates 1 1/2" hasp with padlocks (sold separately)
- Octagon shape reinforces lockout status and conveys STOP

**DO NOT OPERATE ELECTRICIANS AT WORK** tags in French
NFPA Placard Sign Kits

Display the four-color NFPA diamond format for the hazard categories.
- 10" x 7" sign available in 0.040" Aluminum
- Adhesive hazard panels printed black on clear to apply on-site
- Kit includes: 1 sign, 15 numbers (3 sets, 0 – 4), 7 hazard symbols, NFPA wallet guide

<table>
<thead>
<tr>

</tbody>
</table>

Hazardous Material Classification Sign

Properly identify the four hazard ratings of chemicals and materials on hand.
- Post on or in area of chemical containers
- Write in hazard ratings and chemical name for on-the-spot identification

To Order: Add material code before part number. Example: Material Code PVS + Part No. 1007B4845 = PVS1007B4845

<table>
<thead>
<tr>
<th>Material</th>
<th>Code</th>

NFPA Placard Sign Kits

Easy installation and convenient for instant on-site classification of chemical hazard identification.
- Kit includes: 1 blank placard, 15 numbers (3 sets of 0-4), 7 hazard symbols, and NFPA wallet guide
- 0.004" Adhesive Vinyl placards with clear, self-adhesive hazard panels
- Blank colored placards and self-adhesive hazard panels also available separately

<table>

Drum & Container Labels

Label drums and containers to identify contents considered hazardous for handling.
- Available with peel-off liner in: Adhesive Coated Paper and flexible Adhesive-Poly Sheet
- Labels measure 6" x 6"
- Package of 25 or 100

### PCB Labels

- Available in Adhesive-Poly Sheet, Package of 25 only

<table>
<thead>
<tr>

<tbody>
<tr>
<td>PQ</td>
<td>25</td>
</tr>
</tbody>
</table>

### Hazardous Material Tags

Attach tags to hazardous material containers that are difficult to label with adhesive marking.

Tags contain NFPA or HMCIS symbols to help communicate and comply with OSHA 29 CFR 1910.1200 by conveying important chemical hazard information.
Fill in the hazard code and related information for handling and exposure to hazardous chemicals.

Use Hazardous Waste tags to comply with EPA (40 CFR part 262.32) and DOT (49 CFR part 172) regulations to mark hazardous waste.

#### How to Order Tags:

1. Select Material Code: PCT-
2. Select Tag Base Part Number: 1118
3. Select Package: 5/Pk – (blank); 25/Pk – Q
4. Combine Codes in Specific Order for Complete Part Number: 5/Pk – PCT-1118; 25/Pk – PCT-1118-Q
GHS Pictogram Labels

Pictogram labels comply with the Globally Harmonized System.
- Identify hazards associated with chemicals
- The Hazard Communication Standard (HCS) requires eight of the nine GHS pictograms
- The environment pictogram is non-mandatory since environmental hazards fall outside OSHA’s jurisdiction
- Available in Adhesive Coated Paper and Adhesive-Poly Sheet
- 250 or 500 per roll

<table>
<thead>
<tr>
<th>Pictogram</th>
<th>Code</th>
<th>Size</th>
<th>Code</th>

<td>PHC19</td>
</tr>
</tbody>
</table>

To Order Labels: Add material/quantity code after part number.
Example: Part No. PHC02 + Material/Quantity Code PB = PHC02PB

GHS Jumbo Tags

Attach tags to chemicals in the workplace, and add the appropriate signal word and GHS pictogram labels to identify the hazards.
- Large tags with space to write in the product/chemical identification, hazard statements and additional comments on the back
- Label set of nine pictograms and the two approved signal words “Danger” and “Warning” are included for each tag and made of Adhesive Vinyl
- Available in two stock materials, in packs of 5

<table>
<thead>
<tr>
<th>Size</th>

<td>Rigid Plastic</td>
<td>PVT-</td>
<td>5</td>
</tr>
</tbody>
</table>

To Order Tags: Add material code before part number.
Example: Material Code PCT- + Part No. 1121 = PCT-1121
GHS Hazard Communication Training Kit

Panduit GHS Hazard Communication Training Kit provides instruction on OSHA 1910.1200 Hazard Communication Standard, including changes related to Globally Harmonized System for the Classification of Hazardous Chemicals (GHS). Included is a seventy minute video with instructor led training on setting up a Hazard Communication Program and understanding the new labeling and safety data sheet requirements. The Companion CD provided consists of PowerPoint slides, PDF files of the quiz, training record and certificate of completion.

Haz-Com, 18" x 24"
Traffic Signs

Post traffic signs to safely control and regulate the flow of vehicles and pedestrians.

- Constructed of heavy-duty, 0.080" aluminum, rustproof to withstand weather conditions
- Reflective face for added bounce-back light visibility from headlights and other light sources
- Abrasion-resistant face is also UV-resistant to prevent fading for years of outdoor exposure
- Top and bottom center holes for post- or fence-mount installation

Materials

Engineer-Grade Prismatic – Good choice for added visibility in low-light conditions. Type I

High-Intensity Prismatic – Better choice for greater visibility with 3X brighter than Engineer-Grade. Type III, IV, X

Parking Signs

Material – Engineer-Grade Prismatic

Traffic Direction Signs

Material – Engineer-Grade Prismatic
Spring-Less Sign Stand

Economy-grade, roll-up stand for use in moderate winds and light traffic conditions.
- Opens quickly and easily to a wide, 65 1/2" x 43", stable footprint
- Folds to compact size, 5 3/4" x 7 3/4" x 25 1/2"
- Powder-coated, galvanized steel frames with non-slip rubber tips
- Weight: 21 lbs.
- For use with 36" or 48" diamond shaped roll-up construction signs with fiberglass cross-ribs (sold separately on next page)
- Meets Manual on Uniform Traffic Control Devices (MUTCD) specifications

Part No. | UOM
---|---
PTS201 | Each

Single Spring Sign Stand

Single coil spring-loaded design adds stability and flexibility to stand up to wind loads and gusts.
- Leg levers for easy deployment – opens to a wide footprint of 67 1/2" x 42"
- Ergonomic design also allows users to lift up on legs to drop them into place
- Folds to compact size, 8" x 6" x 25 1/4"
- Powder-coated, galvanized steel frames with non-slip rubber tips
- Weight: 24 lbs.
- For use with 36" or 48" diamond shaped roll-up construction signs with fiberglass cross-ribs (sold separately on next page)
- Meets Manual on Uniform Traffic Control Devices (MUTCD) specifications

Part No. | UOM
---|---
PTS202 | Each
**Roll-Up Construction Signs**

Quickly set up highly visible signs for temporary warning of hazard and construction areas.

- Flexible fabric, quick and easy to setup and takedown – roll up for compact storage and portability
- Safety orange with contrasting black messages and symbols
- Cross-Ribs (sold separately) insert into four corner pockets, providing rigid support
- Overlay signs snap on to change directional or distance message

**Materials:**

- **Mesh Vinyl (V)** - Non-reflective, ideal for daytime only applications
- **Fluorescent Vinyl (F)** - Non-reflective, UV stable bright colored vinyl for daytime use only
- **Reflective Vinyl (R)** - High-intensity retro-reflective fiber reinforced nylon fabric, ideal for attention getting and low-light conditions

---

**Cautionary Signs**

- **SLOW**

---

**Cross-Ribs**

Rigid support keeps roll-up signs deployed and visible.

- Constructed of durable fiberglass material
- Inserts into roll-up sign four-corner pockets
- For use with 36” Roll-Up Construction Signs

---

**To Order:** Add material & size code after part number.

Example: Part No. PTS009 + Material/Size Code V36 = PTS009V36

Fence Sign Holder Bracket

Post signs and warnings on chain link fences.
- Galvanized steel bracket
- Universal to work with nearly any size chain link fence
- Protects signs from damage by distributing pressure along the surface area of the bracket
- Two brackets required for post mounting
- Includes 5/16”-18 thread, 3/4” long stainless steel bolt and nylon washer – works well for use with 3/8” sign mounting holes
- Sized to fit most signs

<table>

Includes – (1) Portable Sign Stand, (1) 24” x 24” Engineer-Grade Prismatic Aluminum Stop Sign, (1) Hardware Set

Blinker Signs

Maximum Visibility in any Environment.
- Flashing LED lights, combined with DG High-Prism sheeting, provide superior luminance and visibility
- Eco-friendly, 13 watt solar panel, 6VDC battery charger require no AC
- Low power allows for smaller panel and cleaner look
- LED automatically measures available light and adjusts the LED flash brightness accordingly
- Up to 30 day autonomy (flashing 24/7)
- Heavy-duty aluminum construction with fully enclosed wiring withstands harsh elements
- Attaches to 2 3/8” post with mounting brackets (sold separately)
- MUTCD-compliant for public roadway use

Message Marking Tapes

Use marking tape with specific message to point out potential hazard areas.
- Bold contrasting message printed repeatedly
- 6-mil vinyl adheres to floors, walls, and equipment
- Clear overlaminate protective film resists dirt, light chemicals and light abrasions
- Permanent, self-adhesive back
- 2" x 54-ft. rolls

<table>

Non-Slip Floor Marking Shapes

Mark pallets, storage, and walkways in your facility – ideal for 5S programs.

- Self-adhesive 0.004” vinyl
- Protective non-slip, pebble-textured overlaminate
- Strong acrylic-based adhesive peel-off back liner
- Adhere to clean, smooth, dry surface
- Service temperature range: -20° to 140°F

Color is sub-surface printed

Overlaminate non-slip vinyl pebble-textured surface

To Order:
Example: Part No. PFMTS09 + Color Code GRN = PFMTS09GRN

Non-Slip Floor Marking Tapes

Use non-slip tapes to mark and identify aisles, pathways, and designated locations in your facility.

Sub-surface printed 0.004” vinyl tapes are overlaminated with a 0.017” clear, protective pebble-textured tread. The dimpled non-slip surface is ideal for pedestrian traffic areas.

- Dual-layer, color vinyl and clear textured vinyl construction
- Strong acrylic-based adhesive peel-off back liner
- Adhere to clean, smooth, dry surface
- Service temperature range: -20° to 140°F
- Available in solid colors or with messages

Overlaminate non-slip vinyl pebble-textured surface

To Order Solid Color Tapes:
Example: Part No. PFMT2X100 + Color Code YEL = PFMT2X100YEL

Floor Marking Shapes

Mark directional traffic paths or hazardous areas on floors, stairways, and walls.
- 0.005" vinyl
- Individually die-cut shapes
- Aggressive, permanent, self-adhesive back
- Peel-off liner

Available colors with color code:

To Order: Add color code after part number.
Example: Part No. PFMD2 + Color Code BLU = PFMD2BLU

Footprints

*Size for: Dot by diameter
*Size for: Arrow measured by width of point
*Size for: Footprint is 6" or 12" length
Non-Skid Floor Tapes

Create a high-traction surface to prevent slips, trips, and falls.

- Durable surface provides good grip, wear resistance, and water resistance
- Suitable for indoor and outdoor environments
- Resists sliding, buckling, wrinkling, and peeling
- Black tape is 60-grit aluminum oxide compound layer fused onto thick PVC base; colored and striped tapes are 46-grit
- High-tack acrylic adhesive back
- Peel-off liner

Non-Skid Floor Signs

High-traction, anti-skid, clear grit surface. 6" x 24". Sub-surface printed vinyl floor signs. High-tack, acrylic adhesive back. Peel-off liner.

Non-Skid Floor Shape Tapes

Get a finished look to your anti-skid tapes in pre-cut shapes.

- Muted yellow appearance masks dirt and grime
- Rounded corners to prevent corners from lifting
- Aggressive 60-grit aluminum oxide compound layer fused onto a thick PVC base
- Peel-off liner with high-tack acrylic adhesive back
- Suitable for indoor and outdoor environments, water resistant

**High Performance Marking Tapes**

Heavy-duty composite tape outperforms standard floor marking tapes. Printed 0.002" polyester tape with 2-mil gloss overlaminate provides superior durability for industrial facility and high plant traffic.

- High-gloss surface resists marks and smudges
- Resistant to abrasions, water, chemicals and heat
- High tack, acrylic adhesive back minimizes peel or lift
- Applies to clean, non-coated, smooth or rough surfaces, including concrete
- Low-profile reduces tears and scratches from skids and pallet jacks
- Removable easily without leaving residue or damage to the floor
- Minimum application temperature: 50°F
- Available in solid colors or with messages

**To Order Solid Color Tapes:** Add color code after part number: Red – RED, Orange – ORN, Yellow – YEL, Green – GRN, Blue – BLU, White – WHT, Black – BLK.

Example: Part No. PFMH2X100 + Color Code BLK = PFMH2X100BLK

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>3&quot;W x 50-ft</td>
<td>Roll</td>
</tr>
</tbody>
</table>

**Textured Marking Tapes**

Low-profile grip vinyl tapes are ideal for indoor/outdoor and wet or dry environments.

- Reinforced vinyl with weather-proof adhesive system
- Slip-resistant, mild abrasive surface
- Install on smooth, clean and dry surfaces
- Low level reflectivity
- 3"W x 108-ft. long rolls
- Service temperature range: 0° to 150°F

**To Order:** Add color code after part number:
Red – RED, Blue – BLU, Yellow – YEL, White – WHT, Green – GRN.
Example: Part No. PFMT3X36 + Color Code YEL = PFMT3X36YEL

<table>
<thead>
<tr>
<th>Part No.</th>
<th>UOM</th>
</tr>
</thead>
<tbody>
<tr>
<td>PFMT3X36</td>
<td>Roll</td>
</tr>
</tbody>
</table>

**Floor Label Frame System**

Place and protect message, barcode and other identification on the floor in a sturdy frame system.

Metal frame mounts directly to the floor with four concrete screws (included) and contains a clear protective cover to protect your label (not included) underneath. Beveled edges prevent damage from rollover of pallet jacks and forklift vehicles.

**Small size:**
- 8 1/2" x 5 1/2" x 1/8" all-aluminum oval frame
- 3 1/2" x 5" x 0.063" clear visible protective polycarbonate cover

**Large size:**
- 12" x 7 1/2" x 1/8" all-aluminum oval frame
- 5" x 7" x 0.063" clear visible protective polycarbonate cover

**CAUTION**

**WATCH YOUR STEP**
### Non-Slip Shape Floor Signs

Grab attention with non-slip floor message signs.
- Bold colors and graphics in unique shapes
- Self-adhesive vinyl floor signs are sub-surface printed
- Overlaminated with pebble-textured, non-slip layer
- Can withstand heavy foot traffic
- Permanent adhesive back with peel-off liner
- Signs adhere to smooth, clean, and dry surface

#### Diamond

- [CAUTION FORKLIFT TRAFFIC](#)
- [FORKLIFT LANE](#)

### Pavement-Print Signs

Place message and graphic signs outdoors on pavement.
- Adheres to asphalt, concrete and step-stones
- Conforms to rough, untreated surfaces like stone and cement
- High-performance adhesive back, foil-base material
- Non-laminate surface contains embedded glass beads for a non-slip texture - meeting NFSI and ASTM D2047 specifications
- Withstands normal to heavy walking foot traffic and other abrasions
- Apply to swept, clean, dry surface
- Application temperature range: 50° to 100°F
- For short- to long-term applications
- Removes easily, usually without any residues
Non-Slip Floor Signs

Non-slip, pebble-textured, clear surface withstands heavy pedestrian traffic. Image is sub-surface printed. Permanent, self-adhesive vinyl with peel-off liner.

**Cone Top Warning Signs**

Temporarily and quickly direct facility traffic.

- Slips into top of any standard, flexible traffic cone
- Rugged, 0.060" plastic
- Same message both sides
- Weather- and fade-resistant
- 10" x 14"

**Cones**

Brightly colored cones are ideal to mark hazardous areas.

- Durable, flexible spring-back design
- Molded PVC (Poly-Vinyl-Chloride) plastic
- UV stabilizers for fade resistance
- Stackable for easy transport and storage

**Pennant Flag Tapes**

Attention-getting pennant flag tapes warn of hazardous areas.

**Standard style**
- 9" x 12" red, polyethylene plastic pennants
- Sewn onto durable cord - approx. 66" lead cord each end
- Ideal for indoor and temporary outdoor applications

**Heavy-Duty style**
- Large 18" x 18" fluorescent orange 9-oz. vinyl laminated, nylon pennants
- Tough, tear-resistant
- Sewn onto high-tensile strength cord - approx. 20-ft. lead each end
- Ideal for extended periods outdoors, withstands harsh conditions

**OSHA-Compliant style**
- Large 18" x 18", fluorescent orange 9-oz. vinyl laminated, nylon pennants
- Sewn onto heavy-duty reinforced chord that exceeds OSHA's 500 lb. tensile strength requirements
- Meets OSHA 1926.502(f)(2)(iv) withstandings the harshest conditions

**Cones**

Meets applicable MUTCD and State Standards

**Universal Cone Adapter**

**Sign and cone sold separately**
**Plastic Barricade Tapes**

Quick and effective temporary way to section-off hazards and danger zones.

- Bold warning message continuously repeated the length of the roll
- Lightweight, 0.003" polyethylene plastic
- Durable for indoor and outdoor environments
- Easily cut and secure with nails, tape, staples or tie-off
- 3" x 1000-ft.

- **DANGER**
  - **ASBESTOS HAZARD**
  - **DANGER**
  - **HIGH VOLTAGE**
  - **DO NOT ENTER**

  - **BURNED ELECTRICAL LINE BELOW**
  - **CONSTRUCTION AREA**
  - **DO NOT ENTER**
  - **MEN WORKING ABOVE**

- **CAUTION WET PAINT**

Comply with requirements of ANSI Z535.5-3.2

**Woven Barricade Tapes**

Mark off hazard areas with extra-strong, durable polypropylene tapes.

- Woven polypropylene
- 300-lbs. tensile strength
- Chemical- and weather-resistant
- Ideal outdoor use
- Reusable
- 2" x 200-ft. rolls

**Barricade Rope**

Mark off restricted and hazardous areas with high visibility rope.

- Twisted strands in two-tone, contrasting safety colors
- 5/16" diameter polypropylene
- Floats, resistant to mildew and light chemical exposure
- 600-ft. per roll

**Reflective Plastic Barricade Tapes**

Get reflective visibility in low light areas.

- 0.003" polyethylene tape
- Words alternate in black and reflective silver print
- 3" x 1000-ft.
Free Standing Signs

Set out free-standing signs to identify temporary hazardous conditions.

- Panels have message on both sides
- Rugged 0.125" thick high-impact plastic
- Folds flat for transport and storage
- 20"H x 12"W

7" x 5" clear pocket for holding a tag or folded permit sheet.

PBB0097
PBB0101
PBB0098
Reversible Free Standing Signs

Mark temporary hazards with lightweight plastic stand-up signs.

- Versatile - two signs in one!
- Rugged 0.125" thick high-impact plastic
- Economical - ideal for limited purposes or disposable for one-time use
- Flip and fold sign inside-out to reveal second message
- Lightweight, waterproof corrugated plastic with fold-and-insert-tab
- Stands 20"H x 12"W
- Carry handle cut-out on top
- Folds flat

Molded 2-Sided Free Standing Signs

Open up floor signs to mark temporary hazards.

- Sturdy molded plastic to withstand elements indoors and outdoors
- Message on both sides of the 12"W x 25"H Free Standing Signs stand-up floor sign
- Easy-carry handle
- Sign folds flat for storage
### Unique, industrial design ideal for plant or facility.
- All-plastic, yellow, polyethylene post and base
- 3” dia. post stands 38”H with 16”W, low-profile fillable base
- Base has pre-drilled holes to secure to floor
- Snap lock ensures post will not pull out from base when lifted and moved
- Breaks down and stacks for compact storage
- Finishing cap and C-Hooks included
- Optional color striping in standard and specialty reflective, fluorescent, or glow-in-the-dark
- Connect several posts with 2” x 1” x 1/4” Plastic Chain Links sold separately by the foot

### Standard Yellow Post

### Barrier Cone Bars

In an immediate situation, deploy a bar – placed between two traffic cones – to create a quick and temporary visible barrier.
- Portable, expandable barrier bar
- Ring-ends fit over traffic cones
- Expands up to 6 1/2-ft.
- Collapses to 4-ft. for storage and transport
- Available in two contrasting colors
- Reflective strips for visibility in low light conditions

<table>
<thead>
<tr>
<th>Part No.</th>

Steel Safety Post & Chain

Set out a sturdy post and chain system that stays in place.

Steel Post
• 2" dia. x 34" H powder-coated yellow steel
• 13.5" dia. base covered with durable, black ABS plastic
• Forged universal loop on top
• Indoor and outdoor use

Steel Chain
• Poly-coated yellow steel
• 2/0 straight link coil - 0.18" material dia.
  1.29" inside length x 0.34" inside width (Maximum continuous length is 120 ft.)

Bolt Snap
• 4" nickel-plated cast zinc
• Double-ended

To Order:

Retractable Belt Tape Barriers

Connect belt tape in any combination of posts and wall mounts to control pedestrian traffic indoors.

**Belt Tape:**
- Woven-polyester tape, wound in a self-tension, spring-loaded unit
- 2"W tape extends up to 8-ft – with straight tension without sag or slack
- Retracts smoothly back into the head unit for storage
- Safety mechanism in the spring-tension reduces the whip action of the belt braking, in case of accidental release

**Post Barriers:**
- 2 1/2" dia. x 38"H with 14" dia. weighted base
- Available as Post Barrier with Belt Tape or as Receiver Posts (do not contain belt tape)

**Wall Mount Retractable Belt Tape Barriers**

Close off doorways or hallways.
- 2"W woven-polyester tape, wound in self-tension, spring-loaded unit
- Extends up to 8-ft. without sagging, retracts smoothly
- Head unit with bracket installs with four screws
- Wall Mount Receiver (sold separately) connects end of belt tape to facing wall

**To Order:** Add belt tape color code after part number: Black – BLK, Yellow – YEL, Red – RED. Example: Part No. PBB0045 + Color Code YEL = PBB0045YEL

**Outdoor Retractable Belt Tape Barriers**

Sturdy aluminum stanchion is ideal for use outdoors and in tough indoor environments
- 2 1/2" diameter aluminum post measures 40" high with a sturdy 14" diameter base
- Uses rust-proof stainless steel hardware
- Belt top has 2" wide retractable belt tape with ergonomic, rounded corner belt end and noticeable red slide action lock
- Can accept up to 3 additional belt ends from other belt tape posts
- Available with either 10-ft. or 15-ft. belt tape with contrasting black and yellow hazard stripes.
- Receiver Posts available separately

**Electronic Safety Scoreboards**

Count the number of safe work days in two colors.

- Innovative, durable, frameless construction
- Count days without an accident in green, and if a lost time accident occurs, set the display back to red until you meet your new safe-days goal
- Display can be set to count days or flash between days, date and clock
- Track the 7-day week, or set the display to track only your company’s work days
- Display count can be set to freeze or hold
- In a power failure, all information is stored*
- Tamper-proof display easily sets with handheld remote control

* Indicators notify when a hold or power failure has occurred

**Specifications:**

- For indoor use only
- 28" x 20" x 2" aluminum construction
- Built-in hidden rear mounting brackets
- Four-digit, bright LED display with 2 1/2"H numbers
- Operates on 110 VAC with 6-ft. power cord

Automatically count safe work days with 2 color LED display – red and green.

**Turn-A-Day Scoreboards**

Safety scoreboard has built-in turn dial to display safe days.

- Number dials are plastic and independently rotate from behind
- Lightweight, durable plastic
- Corner mounting holes

**Write-A-Day Scoreboards**

Update safe working days on large scoreboard by writing in the number with dry-erase marker.

- Keep score of consecutive days
- Wipe-off and write-in on poly-coated space provided
- Constructed of durable plastic
- Corner mounting holes

Marker not included.

*Scoreboards featuring “BEST PREVIOUS RECORD” include: One (1) electronic display to count safe days and one (1) magnetic display with changeable numbers set to track record number of days.
One-piece construction for consistent performance and reliability.

Application Focused Bundling
Improve productivity and worker safety with the wide range of sizes, styles and materials for fastening, bundling and clamping.

Increased Reliability in Harsh Environments:
When strength, vibration, radiation, weathering, corrosion and temperature extremes are a factor, the Pan-Steel System provides strong, reliable solutions for use in indoor, outdoor and direct burial applications.
