

Construction & Maintenance Labeling Made Easy

What label do I use to identify an 8 AWG wire?

How do I create a custom arc flash safety sign?

How do I quickly generate a custom pipemarker?

Answer these questions and save up to 75% of your time using innovative labeling software made just for you.

- **EASY-MARK™** Labeling Software Version 3.0 simplifies label creation for safety signs, wires/cables, pipe marking, voltage marking and more
- Intuitive wizard interview process allows automatic generation of standards compliant legends on your labels
- Software selects and formats the optimum label for your specific applications

EASY-MARK™ 3.0 includes WYSIWYG user interface, alpha/numeric serialization, data import, symbol import and is part of a complete line of innovative identification solutions from *PANDUIT*.

See for yourself how EASY it is to use! For a complementary software demonstration or video download, visit:
