**Fiber Patch Field Protection Cover - 1RU**

Part Number: FPFPC1

**INSTALLATION INSTRUCTIONS**

1. **Left mounting bracket**
   - Use either #12-24 x 1/2" or M6 x 15mm screws
   - Repeat other side with right mounting bracket. Only two screws are used.

2. **D-Ring**
   - Insert and snap down into bracket.
   - Repeat right side.

3. **Labels**
   - Install labels upside-down on cover so label reads left to right when cover is removed.

Note: FPFPC1 is not compatible with Opticom Angled Patch Panels, QuickNet Angled Patch Panels, or Angled HDQ Cassettes.
Recommended Cable Routing

D-Ring Removal

Note: A flathead screwdriver may be inserted in the bottom opening of the mounting bracket to pry up on the D-Ring to assist in removal.
