

## Our Foundation of Freedom

Panduit is a typical American Success Story which is an inspiration to all aspiring and accomplished entrepreneurs. It is a tribute to all the existing and past Panduit team. However, it wouldn't have flourished without our Free Enterprise System, which is an essential element of the foundation of the most successful economic system in the world.

Free Enterprise is just one of the essential freedoms given to us by the founding fathers of our great country who crafted our Conservative Constitution.

This system of government provides all our citizens the right to Personal Freedoms commensurate with the God Given Values of Human Life which include the Right to Succeed and the Right to Fail which together result in Individual Responsibility which is imperative for a successful individual and a successful society.

Our Rights also include the protection of human life and the right to Honor God.

We owe it to our descendents and all our fellow citizens to preserve and enhance our Freedoms.

Our goal should be to make our system so successful that it becomes a Beam of Light that Leads the World to Freedom.
