VeriSafe™ Insulation Piercing Connector

**Applications**

The VeriSafe™ Insulation Piercing Connector provides a fast, secure, and reliable way to terminate AVT sensor leads. The compact connector design accommodates up to two taps in a single housing that fully insulates both connections. The patent pending connector allows taps to be made without compromising the integrity of conductors and includes integrated strain relief. Installation is fast and easy without the need to strip wires. Ideal for new and retrofit applications, connections can be made without modifying existing conductor runs.

**Specifications**

Insulation piercing connector for copper wire with two mechanically isolated taps. Optimized for use with VeriSafe™ AVT sensor leads when prepared with Panduit ferrules, P/N F80-12-M.

**Technical Information**

- **Cable run:** 14 – 3/0 AWG (Copper conductors, solid or stranded class A & B)
- **Taps:** (2) 14 AWG (copper conductors, solid or stranded with ferrules)
  
  For stranded wire, use with ferrule F80-12-M
- **Connector materials:**
  
  Housing – polyamide
  
  Insulator – elastomeric polymer
- **Operating temperature:** Up to 90°C (194°F)
- **Voltage range:** 600V maximum
- **Standards & compliance:**
  
  UL 486A-UL 486B, CSA C22.2 No 65-13
  
  cULus listed
  
  RoHS compliant

**Key Features and Benefits**

- **Compact and space saving:** Terminate two taps with a single connector
  
  Fewer parts, less space needed for each installation
  
  Optimized for use with VeriSafe™ Absence of Voltage Tester sensor leads
- **Fast installation:** Insulation piercing design allows for installation without the need to strip insulation from wires
  
  Easily retrofit existing cable runs without modifying conductors
- **Fully insulated design:** Safe and reliable connections
- **Secure connections:** Taps are made without compromising the integrity of conductors
  
  Housing includes integrated strain relief
- **Flexible design:** Family of connectors covers a wide range of cable runs
  
  Suitable for new or retrofit applications
