Mini-Com™ Flush Mount Modular Patch Panels

specifications
Flush mount modular patch panels shall consist of a metal panels with molded rear snap-in faceplates. Patch Panels shall accept all Mini Com modules for UTP, STP, fiber or A/V applications and shall mount to standard 19" racks. Patch panels shall be available in 24-port and 48-port standard density. Select styles shall be available in white. Flush mount patch panels shall be easy to identify with pre-numbered ports. Angled patch panels shall be designed at an optimum angle to help route the cable.

technical information
Mounting options: Mounts to standard 19" rack
Material: Stamping is CRS and faceplate is ABS
Packaging: Packaged with appropriate pre-installed snap in faceplates and a set of mounting screws (#12-24)

key features and benefits
Modular Accepts all Panduit Mini-Com™ Modules to mix and match media types in the same panel
Angled design Minimize the need for horizontal cable managers by enabling patch cords to be routed directly into vertical cable managers which leads to increase closet density
Port and panel identification Pre-numbered ports with write on areas
Optional strain relief bars To help support and manage cables
Optional filler panels Flat and angled design fill unused rack openings to provide a clean and consistent look when used with any version of Panduit patch panels
Optional extender bracket Allows 19" patch panels to be mounted on a 23" rack
Color options Select styles available in white, standard color is black

applications
Mini-Com™ Flush Mount Modular Patch Panels are ideal for multi-media applications; they accept all Mini-Com™ Modules. Flat and angled designs in various port densities available to fit most needs, include pre-numbered port identification. Angled patch panels are available for applications in which rack space is limited. The design allows cable to flow to each side of the rack, minimizing the need for horizontal cable managers and increasing the density of the rack space. Flush mount patch panels can mount on a standard 19" rack or a 23" rack when using the extender brackets PEB1 or PEB2.
