# MICRO DATA CENTER

## Pre-Configured Micro Data Center (MDC)

Quickly and reliably deploy rack mount equipment while protecting the critical physical media that makes up the industrial network.

- Includes copper/fiber connectivity, cable management, grounding
- Dynamic cabinet features ensure safe transport of IT equipment under typical shipping conditions
- Simplifies and speeds deployment
- Enables easy, repeatable integrations
- Aligned with the Rockwell Automation\* and Cisco\*\* Converged Plantwide Ethernet architecture

\*Rockwell Automation is registered by Rockwell Automation in the Patent and Trademark Office of the United States.

\*\*Cisco is a registered trademark of Cisco Technology Inc.
