

smartzone™ G5

Intelligent PDUs

Best-in-Class Outlet Density

Optimal Form Factors

Superior Reliability

SmartZone G5 iPDU Value Proposition

Quality & Reliability

- 3-Year standard and 5-Year extended warranty

High Temp

- Built with premium components to withstand 140°F (60°C) at full load

High Power Density

- Unique outlets design for high outlet density

Hot-Swappable and Upgradeable

- Hot-Swappable Controller with large OLED display

Hardened Security

- Enhanced security with certificate-based advanced asymmetric encryption, validated and hardened with multiple security scanning tools

1G Redundant Network Access

- PDUs Featuring combination outlets increase end user flexibility by allowing the outlet to accept a variety of cords

Real-Time Monitor

- Real-time Monitoring of Power Environmental and Cabinet Security

Environmental Plug & Play Accessories

- Variety of Environmental and Cabinet Access Control Accessories

Multi-Device WebGUI

- Enhanced User-Experience with a self adjusting WebGUI that senses the device you are on

Multi-Color

- A variety of colored PDU chassis, power cords and cable ties

SmartZone G5 iPDU Families

Monitored Input (MI) Series

Input power monitoring.

Monitored Switched (MS) Series

Input power monitoring and outlet switching.

Monitored per Outlet (MPO) Series

Input and Outlet level power monitoring.

Monitored and Switched per Outlet (MSP0) Series

Input and Outlet level power monitoring and outlet switching.

Accessories

A variety of Environmental Sensors; Security Devices; and Power Cords.

Note: All intelligent PDUs Include capabilities for environmental monitoring and rack access control.

iPDU Key Features

SmartZone G5

Product Features	Monitored Input (MI)	Monitored Switched (MS)	Monitored per Outlet (MPO)	Monitored & Switched per Outlet (MSPO)
Design Features <ul style="list-style-type: none"> • Low profile, space saving design • Ultra low profile circuit breakers on most models • Adjustable tool-less mounting system • Color coded outlets • Combination IEC outlets that are locking power cord compatible • Symmetric vertical PDU Chassis to accommodate top or bottom power feed 	•	•	•	•
PDU Energy Metering and Monitoring <ul style="list-style-type: none"> • PDU level watt-hour energy metering (kWh) • PDU level power measurements (W) • Input Phase level power measurements (V, A, VA, kWh, pf) • Circuit breaker level current measurements • High-accuracy, billing-grade metering capabilities • Embedded memory log to record/view/report historical data • User customizable alarm thresholds & notifications 	•	•	•	•
Environmental Management <ul style="list-style-type: none"> • Optional Plug & Play environmental sensors including temperature, humidity, dry contact and water leak • User customizable alarm thresholds and notifications 	•	•	•	•
SmartZone Security Handle <ul style="list-style-type: none"> • Beacon LED to locate cabinets and provide automated visual indication for critical and warning alarms • Status LED provides visual indication of the handle and security status • Up to 200 Users for cabinet access • Multi-Frequency HID 125KHz/13.5MHz, Mifare & iClass • Dual Authentication (Keypad Version) 	•	•	•	•
Network Management and Local Display Interface <ul style="list-style-type: none"> • High-visibility, OLED display • Full featured network management and alerting capabilities supporting HTTP, HTTPS, SSH, Telnet, SNMP, FTP and email • Strong encryption, passwords, and advanced authorization options including local permissions, LDAP, RADIUS, and Active Directory • Daisy Chain up to 4 Rack PDUs and 32 environmental sensors through a single IP address 	•	•	•	•
Circuit Breaker Status Monitoring <ul style="list-style-type: none"> • Active monitoring and alarming of circuit breaker On/Off status 		•	•	•
Outlet Level Switching <ul style="list-style-type: none"> • Remote On/Off power control by individual outlet • User-defined power-on time delay to sequence IT equipment • Automatic sequencing to avoid inrush current overload • Outlet level user security with assignable roles and user access 		•		•
Outlet Level Energy Metering <ul style="list-style-type: none"> • Outlet level watt-hour energy metering (kWh) • Outlet level power measurements (V, A, VA, W, pf) • Outlet level information for Green Grid Level 3 PUE Calculations 			•	•

Locking Outlets and Cables

- Locking combination outlets compatible with dual locking power cords
- Dual locking power cords provide locking at both end (PDU and equipment)
- Variety of power cords lengths and colors available

G5 Intelligent Network Controller (iNC) (Hot Swappable)

iPDU

SmartZone Security Handle

Features

- Up to 200 users
- Multi-frequency card access
- HID 125KHz/13.5MHz, Mifare and iClass
- Dual authentication (keypad version)

Accessories – SmartZone Security Handle

Specially designed accessories to connect directly to the SmartZone Security Handle. The SmartZone Security Handle features an integrated humidity sensor.

Environmental and Security

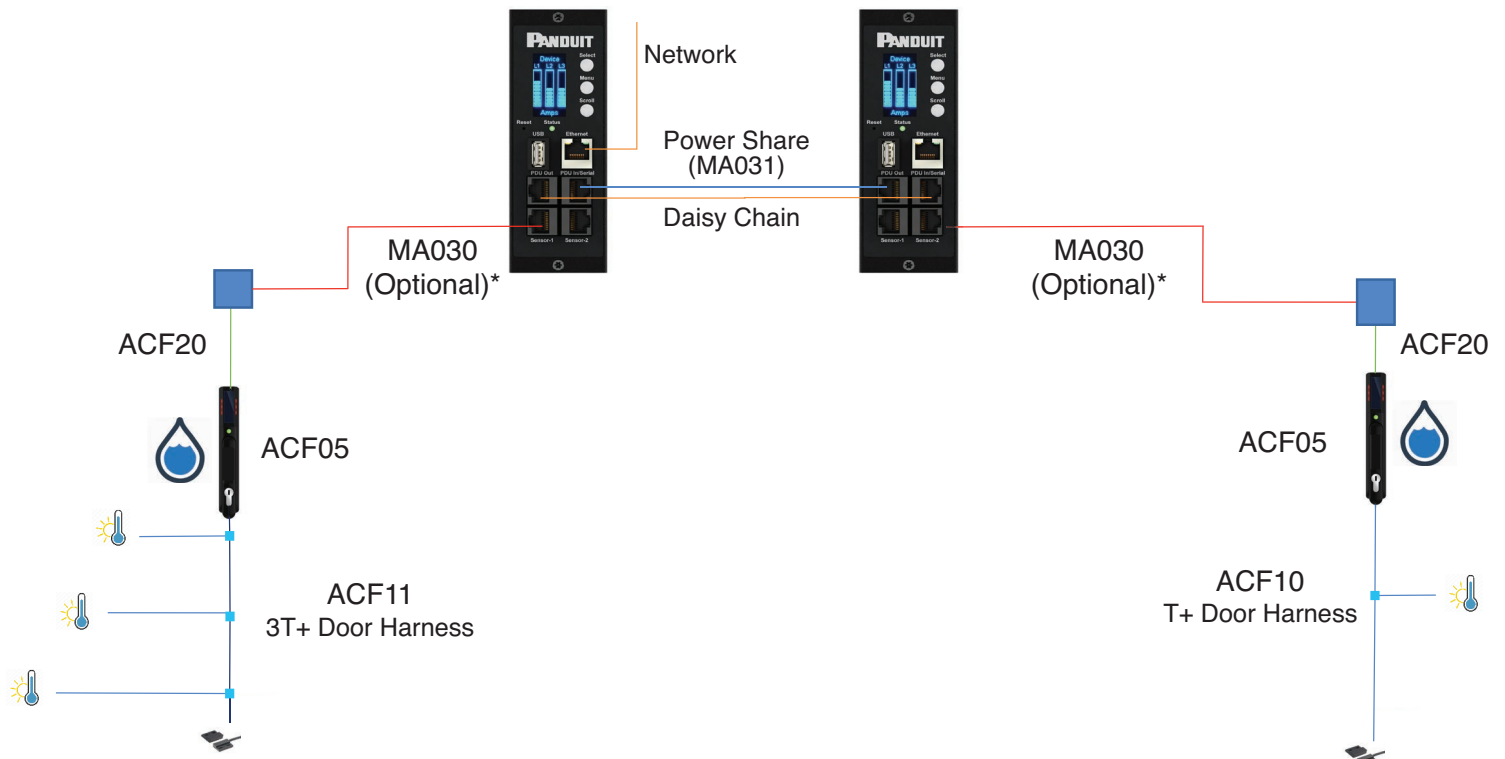

- Temperature + Door Contact (ACF10)

- (3) Temperature + Door Contact (ACF11)

- Harness to connect SmartZone Security Handle to Panduit G5 iPDU (ACF20)

*The MA030 features a coupler to optimize door removal and is 10 ft. (3m) in length.

Accessories – Environmental, Security and Power Cords

Security and Environmental Accessories that connect directly to the G5 iPDU, when NOT using SmartZone Security Handle

Environmental

- Temperature (EA001)
- Temp + Humidity (EB001)
- 3Temp + Humidity (EC001)

- Rope Leak (ED001)
- Spot Leak (EE001)

- 3 Sensor Input Hub (EF001)

- Dry Contact Input (ACC01)

Security

- Door Contact Switch (ACA01)

- Auto Light Bar (ACD01)

Power Cords

- Dual Locking Power Cords
