

Setting the Standard in Safety

PANDUIT® introduces NEW Lockout/Tagout and Safety products to assist with keeping employees safe and aid in compliance with safety standards.

- **"No Tool" Circuit Breaker Lockout** Devices can be easily installed without any tools to lock out circuit breakers
- The **Pneumatic Energy Lockout** installs on any size fitting to effectively isolate potentially hazardous pneumatic energy
- The **Gate Valve Lockout** is easily adaptable for a variety of gate valve styles and sizes to offer security indoors/outdoors or in harsh environments
- **Arc Flash Hazard Labels** comply with 2002 NEC 110.16 and reduce the likelihood of serious injury due to arcing faults near energized equipment
- **Photoluminescent Tapes** absorb energy from ambient light and release it in the form of a glow when power is lost; these tapes are maintenance free and require no electricity to operate

PANDUIT® offers a complete line of quality, innovative safety products to aid in compliance with OSHA 1910.147. Let PANDUIT® supply you with all your Lockout/Tagout and Safety needs!

"No Tool" Circuit Breaker Lockout
