# More Meaningful Connections

## Network Infrastructure Security Solution

## Network Infrastructure Security Solution

Technology is a critical asset for driving improvements in operational and financial efficiencies, but it can become risky. Within Enterprise, data center, and industrial automation applications, broader access to networks, files, and websites increases threats, posing more significant security risks. Security considerations, while paramount, should not become a barrier to service improvements and IT investments.

Panduit is a world-class developer and provider of leading-edge solutions that help optimize the physical infrastructure to mitigate risk and offers Network Infrastructure Security Solutions that enhance information security measures at the physical layer by deterring unauthorized network access and physical system changes.

## Keyed Connectivity

Keyed copper and fiber cabling systems allow the design of secure, modular, end-to-end connectivity for communication and computing elements from the data center to the workstation. The keyed functionality increases network security integrity by providing positive and negative keying features that distinguish network connections mechanically. Up to multiple color-coded keys visually distinguish connections to prevent unintentional connection to network infrastructure for increased security, allowing multiple networks to be managed without the risk of interchanging access and limiting network access to unauthorized users.

### Mini-Com® Keyed Copper Jack Modules

Keyed jack type is indicated by jack color. Select a patch cord (below) of the same color as the jack to match the keyed configuration.

CJK6X88TGBU

Part Number	Description	Keyed Type and Color*
<b>UTP Keyed Jack Modules</b>		
<b>CJK6X88TGBU</b>	Category 6A, RJ45, 10 Gb/s, 8-position, 8-wire universal UTP keyed jack module	Blue*
<b>CJK688TGBU</b>	Category 6, RJ45, 8-position, 8-wire universal UTP keyed jack module	

\*For standard jack module colors and keyed configurations other than Blue, replace BU suffix with BL (Black), RD (Red), YL (Yellow), GR (Green), or OR (Orange). Each color represents a different keyed configuration.

CJK688TGBL

CJK688TGRD

CJK688TGGR

### Keyed Copper Patch Cords

Keyed patch cord type is indicated by patch cord color. Select a jack (above) of the same color as the patch cord to match the keyed configuration.

Keyed UTP Copper Patch Cords

Part Number	Description	Length^	Keyed Type and Color*
<b>UTP Keyed Patch Cords</b>			
<b>UTPK6A3BU</b>	Category 6A, 10 Gb/s UTP stranded CM patch cord with TX6™ PLUS Keyed Modular Plug on one end and TX6™ PLUS Non-Keyed Modular Plug on the other end	3 feet	Blue*
<b>UTPK6A1MBU</b>	Category 6A, 10 Gb/s UTP stranded CM patch cord with TX6™ PLUS Non-Keyed Modular Plug on one end and TX6™ PLUS Keyed Modular Plug on the other end	1 meter	
<b>UTPKSP3BU</b>	Category 6, UTP solid CM patch cord with TX6™ PLUS Keyed Modular Plug on one end and TX6™ PLUS Non-Keyed Modular Plug on the other end	3 feet	
<b>UTPKSP1MBU</b>	Category 6, UTP solid CM patch cord with TX6™ PLUS Non-Keyed Modular Plug on one end and TX6™ PLUS Keyed Modular Plug on the other end	1 meter	

^For standard foot lengths (3, 5, 7, 10, 14) or standard meter lengths (1, 2, 3, 5, 7, 10) change the length designation in the part number to the desired length. For example, the part number for a Category 6A, UTP, keyed, Blue, 14-foot patch cord is UTPK6A14BU.

\*For standard cable colors and keyed configurations other than Blue, replace BU suffix with BL (Black), RD (Red), YL (Yellow), GR (Green), or OR (Orange).

### Water/Tamper Resistant Faceplate

CFPWR4CIG

Part Number	Description
<b>CFPWR4CIG</b>	Single gang water resistant faceplate made of high impact material, meets IP-56 protection, includes gaskets to prevent water damage and two types of screw options to secure hinged cover to base. Requires adhesive labeling. International Gray

# Network Security Device

Network security devices reduce unauthorized access to existing network installations. These devices save time and money associated with network downtime, data security breaches, infrastructure repair, and hardware replacement due to theft. Block-out devices snap into modules and is released with the enclosed removal tool. SmartKeeper offers one master key that controls multiple block-out devices. The lock-in device is a versatile design that is compatible with most existing patch cords, faceplates, patch panels, and other IP devices.

## Block-out and Lock-in Devices

Part Number	Description	Color
-------------	-------------	-------

### SmartKeeper

<b>SKRJ45RD-X</b>	RJ45 A block-out device	Red
<b>SKUSBA-V</b>	USB Type A block-out device	-
<b>SKUSBC</b>	USB Type C block-out device	
<b>SKMKEY</b>	Master Key	

### Block-out Devices

<b>PSL-DCJB</b>	Ten RJ45 jack module block-out devices and one removal tool	Red
<b>PSL-LCAB</b>	Ten LC duplex adapter block-out devices and one removal tool	
<b>PSL-USBA**</b>	Five USB Type 'A' block-out devices and one removal tool	
<b>PSL-USBB</b>	Ten USB Type 'B' block-out devices and one removal tool	

### Lock-In Devices

<b>PSL-DCPLE</b>	Ten Standard RJ45 plug lock-in devices, one installation/removal tool	Red
<b>PSL-DCPLRE</b>	Ten recessed RJ45 plug lock-in devices, one installation/removal tool	
<b>PSL-DCPLSE</b>	Ten super recessed RJ45 plug lock-in devices, one installation/removal tool	
<b>FLCCLIW-X</b>	LC duplex lock-in clip and removal tool	White
<b>QPPLD6-X</b>	QuickNet™ 6-Pack Plug Pack Lock-in Device	Red
<b>QPPLD8-X</b>	QuickNet™ 8-Pack Plug Pack Lock-in Device	

Visit [www.panduit.com](http://www.panduit.com) for color and package options.

\*\*Add -L to end of part number for bulk packages of 50 pieces with 5 removal tools to reduce single-use plastic

## Zone Enclosures

Zone enclosures provide accessibility and flexibility to reconfigure office spaces. Each zone enclosure serves as a main distribution point for a particular zone. Keyed lockable features prevent unauthorized access.

Wall Mount Cabinets include keys to secure front and rear doors and side panels, they can be upgraded with optional combination lock that eliminates the need for a physical key.

### PanZone® TrueEdge Wall Mount Enclosures

WME6BL

Part Number	RU	Height In. (mm)	Width In. (mm)	Depth In. (mm)	Load Capacity Lbs. (kg.)	Color
WME3**	3	42.0 (1067)	42.0 (1067)	9.5 (241)	200 (91)	Black
WME6**	6			14.8 (376)	300 (136)	
WME9**	9			20.0 (508)	400 (181)	

\*\*Colors: Black (BL) and White (WH)

### PDU Security Handle

ACF06

Part Number	Description
ACF05	PDU Security Handle with Dual Frequency (125 kHz and 13.56 MHz) Card Reader and integral humidity sensor. All handles feature the base tumbler (TU020X) pre-installed at the factory.
ACF06	PDU Security Handle with Dual Frequency (125 kHz and 13.56 MHz) Card Reader, integral humidity sensor, and keypad for dual authentication. All handle feature the base tumbler (TU020X) pre-installed at the factory.

### PanZone® Wall Mount Cabinets

PZWMC12W

Part Number	RU	Height In. (mm)	Width In. (mm)	Depth In. (mm)	Load Capacity Lbs. (kg.)	Color
PZWMC12^	12	23.8 (605)	25.0 (635)	25.0 (635)	250 (113)	Black
PZWMC18^	18	34.0 (864)			300 (136)	
PZWMC26^	26	48.1 (1224)			350 (159)
