General Information

This course catalog lists Panduit's course Distributor offerings from the Network Infrastructure Business Unit. The catalog is divided into the following topic sections:

1. Network Infrastructure
2. Enterprise
3. Data Center
4. Industrial Network

Each of these sections contain a list of courses that pertains to that topic. Details for each course contain the following information:

- Description with Prerequisite Requirements (where applicable)
- Audience Level Recommendations
- Mode of Delivery
- Target Audience
- Course Duration
- Available Languages

As you review, keep in mind that course offerings may be subject to change. For specific details on course offerings or upcoming training events, please contact a Panduit representative.

Important Information: To access courses using provided links, you will need to create an account with University of Panduit and ensure you are logged in before clicking the link. Details on registering and logging in to the University of Panduit site are included in the Training Access Instructions section of this catalog.

Network Infrastructure Products

The courses listed in this section cover the features and benefits, target market, and value proposition of select Panduit Network Infrastructure products.

Copper Cable Products

Description: This 15-minute online course provides a brief overview of Panduit's Copper Cable product line, as well as the target market and value proposition. Panduit offers a full line of innovative copper cable products that meet the most demanding industry requirements for data, telecommunications, and industrial applications. Learn more about our most popular Category 5e, Category 6, Category 6A, and Category 7 Copper Cables.

Audience Level Recommendation: Beginner, Sales

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English, Spanish

Course Links: Click [HERE](#) to access the course in English.

Copper Connector Products

Description: This 15-minute online course provides a brief overview of Panduit's Copper Connectors product line, as well as the target market and value proposition. Panduit offers the best jacks in the industry with the fastest termination, highest quality, and best performance. Learn more about PanNet (Mini-Com) and NetKey (Keystone) Copper connectors and termination tools.

Audience Level Recommendation: Beginner, Sales

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English, Spanish

Course Links: Click [HERE](#) to access the course in English.

Copper Patch Cord Products

Description: This 15-minute online course provides a brief overview of Panduit's Copper Patch Cord product line, as well as the target market and value proposition. Panduit's offers a complete line of patch cords including shielded and unshielded, and variations for both NetKey and Category 5e. Patch Cords come in a wide variety of lengths and colors and are 100% production tested for quality performance.

Audience Level Recommendation: Beginner, Sales

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English, Spanish

Course Links: Click [HERE](#) to access the course in English.

Rack and Cable Management Products

Description: This 15-minute online course provides a brief overview of the Rack and Cable Management product line, as well as the target market and value proposition. Panduit provides leading edge rack and cable management solutions for managing, protecting, and showcasing networks for lowest cost of ownership. Learn more about Panduit's racks, vertical and horizontal cable managers, and hinged wall mount brackets.

Audience Level Recommendation: Beginner, Sales

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English, Spanish

Course Links: Click [HERE](#) to access the course in English.

Cable Pathway Products

Description: This 15-minute online course provides a brief overview of the Pathways product line, as well as the target market and value proposition. Learn more about Panduit's cable pathway systems including

FiberRunner and

Wyr-Grid, which are critical to protect your cabling infrastructure over the lifetime of the deployment.

Audience Level Recommendation: Beginner, Sales

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English, Spanish

Course Links: Click [HERE](#) to access the course in English.

Audio/Video Products

Description: This course provides a brief overview of Panduit's new AV product line, as well as the value proposition, target markets, applications and the features and benefits of each new AV product.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

PoE Extender Products

Description: This course provides a brief overview of the PoE Extender product line, as well as the value proposition, target markets, applications and the features and benefits of each PoE Extender product.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Faceplate and Outlet Products

Description: This 15-minute online course provides a brief overview of the Faceplate and Outlet product line, as well as the target market and value proposition. Panduit offers the most comprehensive selection of communication outlets to connect your copper, audio/video, and fiber cabling systems, including: faceplates, blockout & lockout devices, surface mount boxes, audio/video modules, and patch panels.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Surface Raceway Products

Description: This 15-minute online course provides a brief overview of the Surface Raceway product line, as well as the target market and value proposition. Panduit has a comprehensive line of Surface Raceway solutions, including Single Channel, Multi-Channel, and Specialty Raceway offerings.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English, Spanish

Course Links: Click [HERE](#) to access the course in English.

Copper QuickNet Products

Description: This 15-minute online course provides a brief overview of the Copper QuickNet product line, as well as the target market and value proposition. Panduit's QuickNet Copper Cabling System is a

custom pre-terminated cabling solution, designed to meet unique structured cabling requirements. Learn more about Panduit's QuickNet Cable Assemblies, Patch Panels, and Patch Panel Accessories.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

SmartZone G5 Products

Description: This course provides a brief overview of the SmartZone G5 product line, as well as the target market and value proposition.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Bulk Fiber Cable and Connector Products

Description: This 15-minute online course provides a brief overview of Panduit's Bulk Fiber Cable and Connectors product line, as well as the target market and value proposition. Panduit's Bulk Fiber Cable and Connector product line includes OptiCore fiber optic cabling, OptiCam 2 termination tool, LC/SC/ST Connectors, and various Kits, adapters & splitters.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Fiber Assembly Products

Description: This 15-minute online course provides a brief overview of the Fiber Assemblies product line, as well as the target market and value proposition. Panduit offers a complete solution of fiber assemblies including

HD Flex, OptiCom, QuickNet, and other fiber assembly accessories. .

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Cabinet Products

Description: This 15-minute online course provides a brief overview of Panduit's Cabinets product line, as well as the target market and value proposition. Panduit's comprehensive cabinet product offering includes Net-Access and Net-Verse cabinets, and addresses cable management challenges, enhances network reliability, and optimizes both space utilization and thermal efficiency.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

PDU, Gateway & Environmental Monitoring Products

Description: This 15-minute online course provides a brief overview of the PDU's, Gateways, & Environmental Monitoring product line, as well as the target market and value proposition. Panduit offers a wide range of products to monitor your Data Center equipment including PDUs, Gateways, SmartZone Hardware, and SmartZone Sensors.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Thermal Management Products

Description: This 15-minute online course provides a brief overview of the Thermal Management product line, as well as the target market and value proposition. Learn more about Panduit's ducting, containment, and thermal accessories to maximize available rack space and ensure uniform cooling temperature.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Direct Attach Copper Cable Assembly Products

Description: This 15-minute online course provides a brief overview of the Direct Attach Copper Cable product line, as well as the target market and value proposition. Direct Attach Copper Cable (DAC) are high speed, cost effective interconnects in Data Centers. The primary use is a top of rack switch-to-server link. Learn more about Panduit's SFP+ and QSFP+ DAC.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Pre-Configured Industrial Distribution Frame Products

Description: This 15-minute online course provides a brief overview of the Pre-configured Industrial Distribution Frame product line, as well as the target market and value proposition. Panduit's Pre-configured IDF is specifically engineered to deploy and protect rack mount Ethernet switches in industrial applications. Learn more about Panduit's 12 and 26 rack units and accessories.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Pre-Configured Micro Data Center Products

Description: This 15-minute online course provides a brief overview of the Pre-configured Micro Data Center product line, as well as the target market and value proposition. Panduit's Pre-configured Micro Data Center is specifically engineered to allow quick deployment of rack mount equipment while protecting critical physical Media. Learn more about Panduit's 24 and 42 rack units and components.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Network Zone System Products

Description: This 15-minute online course provides a brief overview of the Network Zone System product lines, as well as the target market and value proposition. Panduit Network Zone Systems rapidly deploy an Ethernet/IP network on the plant floor with a reliable, structured approach that reduces installation time and lifecycle costs. Learn more about Panduit's pre-configured, switch ready, and integrated Network Zone System Products.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Network Infrastructure Essentials

The courses listed in this section cover fundamental Network Infrastructure industry knowledge.

Industry Standard Essentials

Description: This course provides a general overview of the relevant industry standards by region and association.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 30 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Grounding and Bonding Essentials

Description: This course provides an overview of essential Grounding and Bonding knowledge and explores the foundation of a successful Grounding and Bonding System. First, you will review the definitions of earthing, grounding, and bonding. Then, you will explore the importance of grounding and bonding, as well as 5 steps to implementing a solid grounding and bonding system. You will also explore how grounding and bonding applies to the real-world applications of data center, enterprise, and industrial automation spaces.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 30 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Copper Media Essentials

Description: This course provides an overview of essential copper media knowledge including data transmission speeds, copper cable construction and shielding types, industry defined performance categories, channel performance, and applications for Enterprise, Data Center, and Industrial environments.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 45 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Copper Media Testing Essentials

Description: This course provides a high-level overview of testing copper cabling installations including the importance of certification, copper cable testing devices and parameters, and troubleshooting steps for common test failures.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 45 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Fiber Media Essentials

Description: This course provides a high-level overview of how fiber optic systems function, the various types of fiber optic cabling and connectors, and factors that affect fiber optic cabling performance.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 40 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Fiber Media Testing and Troubleshooting Essentials

Description: This course provides a high-level overview of testing fiber cabling installations, including the importance of certification, testing devices and parameters, and troubleshooting steps for common test failures.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 40 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Fiber Media Inspection & Cleaning Essentials

Description: This course provides an overview of Fiber Media Inspection and Cleaning best practices, as well as the importance of properly inspecting and cleaning fiber optic cable.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors

Estimated Completion Time: 40 minutes

Available Languages: English

Enterprise

The courses listed in this section are applicable to Enterprise opportunities and applications.

Audio/Video Product Solutions

Description: This 60-minute online course will introduce the components, features, benefits, value proposition, and applications of Panduit's new AV product line, as well as sales techniques and market positioning for Panduit's new HDBaseT Extenders, Table Boxes, Faceplate Inserts, Above Floor Raceway, and In Wall Boxes.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Distributors,

Estimated Completion Time: 60 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

PoE Extender Solutions

Description: This course focuses on the value proposition, target markets, applications and the features and benefits of each PoE Extender product.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Distributors,

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Data Center

The courses listed in this section are applicable to both Data Center Physical Infrastructure (DCPI) and Data Center Infrastructure Management (DCIM) opportunities and applications.

Life Cycle of the Data Center

Description: This course explains the four phases of the data center life cycle, and how Panduit's solutions accelerate and simplify the design, procure and deploy phases, and optimize the operate phase.

Audience Level Recommendation: Intermediate

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Data Center Physical Infrastructure Assessment Process

Description: This course will offer an overview of Panduit's Physical Infrastructure assessment process including a description of each of the seven functional areas of a data center assessment.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Thermal Assessments for Data Centers

Description: This course provides an overview of Panduit's Thermal Assessment and Optimization Services and examines the benefits of deploying them in data centers.

Audience Level Recommendation: Intermediate

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 20 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Panduit for Data Centers

Description: This course will provide a high-level overview of Panduit's converged infrastructure solution, data center personas, and how Panduit fits into the data center stack.

Audience Level Recommendation: Intermediate

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Data Center Design Solutions

Description: This course will take you through several data center customer scenarios and build an applicable Panduit solution to address client needs.

Audience Level Recommendation: Intermediate

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 40 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Industrial Network

The courses listed in this section are applicable to Industrial Network opportunities and applications.

Panduit for Industrial Automation Infrastructure

Description: This course provides a high-level overview of Panduit's Industrial Automation Infrastructure solutions, services, and IntraVUE offering.

Audience Level Recommendation: Beginner

Training Delivery Method: Online

Audience: Internal Panduit Employees, Partners, Rep Firms, Distributors, End Users

Estimated Completion Time: 15 minutes

Available Languages: English

Course Links: Click [HERE](#) to access the course in English.

Panduit Industrial Network Distributor Program (PIN)

Description: This course provides the training required to become a Certified Panduit Industrial Network Specialist (PIN). A PIN Specialist is a champion of Panduit's value proposition, has a thorough understanding of the commercial and physical capabilities of Panduit's networking infrastructure products, and can explain the sales role they play in an industrial opportunity to enable lead generation and basic product support from a product distributor.

Audience Level Recommendation: Advanced

Training Delivery Method: Online

Audience: Partners, Rep Firms, Distributors

Estimated Completion Time: 3 Days
